

Information and suggested tables to include in the Cohort Maintenance RPPR (in addition to the reporting requirements of RFA-ES-22-001). Please report or upload a pdf under G.1 of the RPPR.

- (1) Several (3 to 4) science highlights that were enabled by the resource
- (2) Challenges and solutions
- (3) For cohort resources centered around sharing data, complete Table 1A. For resources centered around sharing biological samples complete Table 1B. For resources centered around dissemination of environmental health information (e.g., infographics, videos/PSAs; training materials), complete Table 1C. All cohort resources, complete Tables 2 and 3.

Table 1A, 1B, 1C: Report about resource userbase (choose at least one)

Table 1A: Sharing of EEC Data ('external' refers to outside of your institution)

# of data requests	# of approved requests for external users	# of approved requests for internal users	# shared data resulting in non-NIH funding	# of hours managing requests/ consultations	# of hours preparing datasets	Additional metrics

Table 1B: Sharing of EEC Biospecimens

# of sample requests	# of approved requests for external users	# of approved requests for internal users	# samples or reagents maintained in the resource	# of hours preparing samples for sharing

Table 1C: Sharing of EEC Environmental Health Information (infographics, videos/PSAs; training materials)

# of website visits	# of downloads	# of users (if possible)	# of hours developing product	Additional metrics

Table 2: Report on user diversity

List user institutions	Mark if undergraduate-focused institution	Mark if Minority-Serving Institutions (MSI)	# of users from other organizations (such as companies)	List of user institution states/countries

Table 3: Report on trainee diversity

# of on-site trainees from under-represented groups	# of virtual/ remote trainees from under-represented groups	# of trainees from research institutions	# of trainees from undergraduate-focused institutions	# of trainees from Minority-Serving Institutions (MSIs)	# of trainees from other organizations (such as companies)	List of states/countries of trainee institutions

Please list external repositories and other shared sites for which EEC data is being accessed:
