

CURRICULUM VITAE
LISA GEORGIANNE RIDER, M.D.

September 2015

PRESENT POSITION

Deputy Unit Chief, Environmental Autoimmunity Group, Clinical Research Branch,
National Institute of Environmental Health Sciences (NIEHS), National Institutes of Health (NIH)
Bldg 10, CRC, Room 4-2352, 10 Center Drive, MSC 1301
Bethesda, MD 20892-1301
Phone: (301) 451-6272
FAX: (301) 451-5588
Email: riderl@mail.nih.gov

EDUCATION

1983-1987 **M.D.**, Duke University School of Medicine, Durham, N.C.

1979-1983 **A.B.**, Duke University, Durham, N.C.
Chemistry with Biochemical Specialization

1979 **High School Diploma**, Ridge High School, Basking Ridge, NJ

POST-GRADUATE TRAINING

July 1991-
June 1993 **Pediatric Rheumatology Fellow** (clinics), Children's Hospital National
Medical Center, Washington, DC

March 1991-
July 1993 **Clinical Associate**, Laboratory of Chemical Immunology (Dr. Henry Metzger),
Arthritis and Rheumatism Branch, National Institute of Arthritis and Musculoskeletal and
Skin Diseases, National Institutes of Health, Bethesda, Maryland

Aug 1990-
Feb 1991 **Pediatric Rheumatology Fellow**, University of Washington/Children's
Hospital and Medical Center, Seattle, WA

July 1987-
July 1990 **Internship/Residency in Pediatrics**, University of Washington/Children's
Hospital and Medical Center, Seattle, WA

PROFESSIONAL POSITIONS

Sept 2003-
Present **Deputy Unit Chief**, Environmental Autoimmunity Group (EAG), Office of Clinical
Research, National Institute of Environmental Health Sciences, National Institutes of
Health, Bethesda, MD

Duties/Accomplishments:

- Supervisory and management responsibilities for administration of the clinical research unit together with the unit chief. Typically serve as acting unit chief 60 - 75 days per year, while he is on travel or leave (increased to 40% time from October 2011 –February 2013). Duties include unit operations, research directions and communications with collaborators within and outside NIH, budget management, personnel issues, patient care administration, grant and protocol writing, IRB and protocol oversight, oversee GCP monitoring visits, development and management of several Oracle databases for clinical research data, and planning of duties for other unit personnel, as well as seeing all pediatric patients referred to the unit. Plan and execute all research for the unit together with the team.
- Acting Unit Chief of EAG 40% of the time from October 2011 –February 2013, while Unit Chief assumed Acting Clinical Director position, and ongoing while Unit Chief is on travel or leave (10-15% time overall, including 4 months in 2015).
- Principal investigator of myositis studies. Lead investigator in study of calcinosis. Lead Associate Investigator in studies of environmental factors associated with etiology and pathogenesis of systemic rheumatic diseases and in clinical trials of biologic therapies for myositis. Steering Committee member of multi-center NIH clinical trial of Rituximab for adult and juvenile myositis. Principal investigator of international project to develop new response criteria for adult and juvenile myositis.
- Precept research fellows and instruct typically 8 - 12 Unit personnel concerning ongoing basic and clinical research. Directly supervising:

- Takayuki Kishi MD PhD (6/15 – present): Assistant Professor of Pediatric Rheumatology, Tokyo Women's Hospital and Myositis Association research fellow: Evaluation of treatment responses in juvenile myositis
- Hanna Kim MD (2015- present): NIAMS Metzger Scholar, Co-mentor with Raphaela Goldbach-Mansky: Biomarkers in JDM
- Nastaran Bayat MD (2014- 6/15): Childhood Myositis Heterogeneity Study treatment responses
- Payam Farhadi MD (2011- 6/15, recipient 2015 DC Rheumatism Society Fellows Forum Poster award), Nastaran Bayat (2011- 2013), Abdullah Faiq MPH (2011 – 2014): MYOVISION project
- Saad Feroz BA (2012 –2013): Post-bac IRTA student; Nastaran Bayat MD (2013-14): ACR-EULAR Myositis response criteria project
- Adrienne Yip BA (2010 – 2012): Post-bac IRTA student (Rituximab in Myositis project, Recipient 2011 DC Rheumatism Society Fellows Forum Poster award, 2012 DC Rheum Society Fellows Forum award)
- Alexis Wilson (summer 2012, NIEHS Summer of Discovery student): MYOVISION project.
- Anna Patnaik (summer 2011): Montgomery Blair Math Science high school magnet student- senior research project: Myositis after vaccination. Biostatistics award at Blair research festival.
- Sepehr Mesdaghinia MD (2010- 2011): Special volunteer (Myositis after vaccination project, MRI and myositis after vaccination project)
- Ashkan Shademan MD (2010): Special volunteer (MRI project)
- Mona Shah- PhD candidate student, George Washington University Department of Epidemiology (2008 –2012) (Defining clinical and autoantibody phenotypes in juvenile myositis, UV light)
- Lan Wu: (2007 – 2012): Johns Hopkins University college student, volunteer (environmental factors project, work on the databases for Childhood Myositis Heterogeneity Study)
- Michael Harris-Love PT PhD (2005-2010): faculty member, DC VA Medical Center; studies on muscle strength and function
- Kathleen Coyle (2007 – 2008), NIAMS rheumatology fellow (insulin resistance and hyperlipidemia in juvenile myositis)
- Gulnara Mamyrova, MD PhD – Clinical Research Fellow (2003 – 2008); recipient DC Rheumatism Society Fellows Research Award (2005-2007); currently Research Associate, George Washington University Department of Medicine (genetic risk factors for juvenile myositis)
- Jonathan Chipman- NIEHS 2007 Summers of Discovery Student, completing PhD in statistics at Boston University (endothelial activation markers)
- Amy Li (2007 -08; 2009 Summers of Discovery Student, Duke University undergrad), (biomarkers in juvenile myositis)
- Kim Nguyen (2008-09): Montgomery Blair Math Science high school magnet student- senior research project (psychosocial stress in pediatric systemic autoimmune diseases)
- Jason Monroe – NIEHS 2005 Summers of Discovery student, PhD student in Statistics, UCLA. (Myositis Damage Index).
- Leora Vegosen: Masters of Environmental Science student (2004-05), Johns Hopkins University School of Public Health; NIEHS 2004 Summers of Discovery student; Recipient of 2005-06 ACR Research and Education Foundation Medical/Graduate Student Achievement Award. Birth seasonality in myositis.
- Melvina Evereklian – former Summer student, RN student, Univ. Maryland
- Database managers/clinical research assistants for NIEHS myositis and IMACS studies: Ellen Caruso (2001-2012), Vanessa Voss, RN (2004-05), Julia Lee (2010-2012), Mikaela Chase (2011-2012), Kalpesh Vaghela (2012 – present), Dominick Maican (2014- present)
- Attending physician for all of the unit's pediatric patients, including clinical evaluation, treatment and communications with referring physicians.
- Co-chair of International Myositis Assessment and Clinical Studies (IMACS) Group. Developed group's web site to provide public access to outcome measures, assessment tools and related educational materials. Oversee a data repository of myositis clinical trials and natural history studies, including an on-line Oracle database of outcome measures and study demographics and oracle databases of the group's large clinical research studies. Maintain group's website content, including training materials. Organize group's annual meeting and direct all correspondence to members.
- NIEHS representative to NIH Clinical Center committees, particularly on pediatric care issues, and NIEHS committees, including IRB and Clinical Research Advisory Committee. NIH moved the hospital to the new Clinical Research Center and opened a NIH-wide multidisciplinary pediatric clinic in 2005.
- Advisory board and executive section member of national advisory boards, including ACR Pediatric

Executive Section, Pediatric Rheumatology Collaborative trials Group (PRCSG), Cure JM Foundation, The Myositis Association, AAP subsection of Pediatric Rheumatology. Adviser to several pharmaceutical companies on myositis clinical trials.

- Recent research findings have included development of definitions of improvement as a primary composite endpoint for myositis clinical trials, discovery of 2 novel autoantibodies that are the most frequent autoantibodies present in juvenile dermatomyositis patients, understanding of clinical and autoantibody phenotypes in juvenile myositis, understanding longterm outcomes and risk factors for poor outcomes in juvenile myositis, development and validation of novel outcome measures for juvenile and adult myositis, and discovery of new immunogenetic and environmental risk factors for juvenile myositis.
- Led research team to establish MYOVISION, a patient registry of ~2000 myositis patients. Research has included basic illness information, treatment responses, as well as environmental factors, including ultraviolet light, infections, medications, and occupation and hobby exposures.
- Senior editor of a book on juvenile myositis involving more than 70 health professionals; associate editor of pediatric rheumatology journal.
- Invited for national and international lectureships at meetings and prominent medical schools.
- Frequent advisor to NIH and other physicians and patients throughout the world, patient support groups, DHHS agencies, and colleagues at medical schools in the evaluation and care of challenging patients with pediatric rheumatic diseases, and in review of scientific activities related to autoimmunity in children.

Jan 2001–
Sept 2003

Senior Clinical Investigator and Medical Officer, Environmental Autoimmunity
Group (EAG), Office of Clinical Research, National Institute of Environmental Health
Sciences, National Institutes of Health, Bethesda, MD

Duties/Accomplishments:

- Design and execute clinical research, assist Unit Chief in administration of EAG, supervise and mentor personnel within the group.
- Principal investigator of myositis study and lead investigator of calcinosis study. Co-investigator of research protocols examining environmental risk factors for autoimmune diseases and novel therapeutic agent for myositis. Contributed to study design and questionnaire development, design of Oracle databases for the studies.
- Attending physician for all pediatric patients admitted to EAG research protocols, plan research and clinical studies for patients, and communicate results to referring physicians.
- Attending physician and consultant in pediatric rheumatology clinic at Walter Reed Army Medical Center (until Aug 2004).
- Co-chair and co-founder of International Myositis Assessment and Clinical Studies (IMACS) Group, which has developed new instruments to assess myositis. Led 3 international workshops on outcome measures for myositis, which resulted in new standards for conduct and reporting of clinical trials in myositis, and will establish new clinical practice standards. Developed internet site for IMACS to house member applications, public use of validated tools and training materials, meeting presentations, ongoing studies.
- Invited for multiple national and international lectureships at meetings and prominent medical schools.
- Supervisor and mentor to:
 - Gulnara Mamyrova MD PhD – Clinical Research Fellow
 - April Bingham MD- Visiting pediatric rheumatology fellow, Columbia University
 - Melvina Evereklian- RN student; volunteer. 2005 Beacon conference award recipient.
 - Lauren Komarow – NIEHS 2003 Summers of Discovery student, MS in biostatistics, Univ. Michigan; currently Biostatistician, Center for Biostatistics in AIDS Research, Harvard School of Public Health
 - Adam Schifffenbauer – NIEHS 2002 Summers of Discovery student, BA Univ. Chicago; currently MD PhD student at Penn State University- later Staff Clinician, EAG, NIEHS, NIH
 - Tina Sanghvi – NIEHS 2002 Summers of Discovery student and 2003 summer student, BA, Duke Univ, currently MD student at Univ. Iowa
 - Ellen Caruso- part-time volunteer for data management of myositis study.
- Projects have included validation of clinical outcome measures and surrogate laboratory measures to assess disease activity in myositis, new autoantibodies in myositis, features of lipodystrophy associated with juvenile myositis, immunogenetic loci as risk factors for myositis, HLA typing of juvenile myositis patients.

- Teach NIAMS and NIEHS adult rheumatology fellows, students, post-docs in patient conferences, patient presentations, and quarterly lectures on juvenile dermatomyositis. Instruct EAG staff, including other researchers, clinicians, nurse and support staff concerning ongoing research and clinical studies of patients.
- Assist the Unit Chief in administration of unit, including serving as Acting Chief up to 30 days per year while he is on travel or leave. Developed all SOPs and procedures for pediatric patients enrolled in unit's research studies. Assisted the chief in establishing a new clinical research unit on the NIH campus in Bethesda, MD, with our institute in North Carolina, including defining space for offices and clinics, hiring of unit personnel, developing SOPs.
- NIEHS representative to NIH Clinical Center, IRB and data safety monitoring board committees; advisor to DHHS Children's Longitudinal Environmental Health Study (National Children's Study) and Immunity, Infections and Vaccines Working Group; advisory board and executive section member of national pediatric rheumatology and patient support groups, and the FDA.
- Senior editor of a book on juvenile myositis involving more than 70 health professionals.
- Frequent advisor to NIH and other physicians and patients throughout the world, patient support groups, DHHS agencies, and colleagues at medical schools in the evaluation and care of challenging patients with pediatric rheumatic diseases, and in review of scientific activities related to autoimmunity in children.

Sept 1996 – **Medical Officer and Staff Scientist**, Division of Monoclonal Antibodies,
Dec 2000 Center for Biologics Evaluation and Research (CBER), Food and Drug Administration,
Bethesda, MD

Duties/Accomplishments:

- Lead investigator of 2 large multi-center nationwide studies of the juvenile myositis syndromes, including data collection and analysis. Principal investigator of NIH research protocol. Discovered microchimerism is frequently present in children with myositis and potentially important in pathogenesis. Developed novel instruments to assess myositis outcomes. Identified a number of immunogenetic polymorphisms, as risk factors for myositis in adults and children. Defined a number of clinical, immunologic and environmental subsets of juvenile myositis.
- Supervised and mentored 4 students (Abhijit Pal and Adam Schifffenbauer – International Baccalaureate Program, Richard Montgomery High School; Ben Laskin, BA, Duke Univ., currently MD student Univ. Maryland; Elizabeth Zachariah, BA, Univ. Maryland) and 1 volunteer (Ellen Caruso) who participated in data management and analysis of clinical studies, or HLA typing of juvenile myositis patients and processing tissue samples from patients.
- Invited lectureships at national meetings and medical schools.
- Chaired licensure committee for Etanercept for juvenile rheumatoid arthritis, and served on other licensure committees for anti-TNF α therapies for rheumatoid arthritis. Involved in policy making for rheumatic diseases and pediatrics at the FDA. Authored Rheumatoid Arthritis, Systemic Lupus Erythematosus, and Pediatric Clinical Trials Guidance Documents; participated in drafts of 1998 Pediatric Regulation. Policies developed to apply pediatric use labeling regulation to juvenile rheumatoid arthritis resulted in a large number of IND and NDA submissions for this orphan pediatric population. Consultant reviewer for licensure of several drugs for juvenile rheumatoid arthritis, vaccine adverse events, blood product labeling for pediatric use, and silicone implant adverse events. Represented FDA on Pediatric Rheumatology Collaborative Study Group Advisory Council. Presentations to Arthritis Advisory Committee. Regulatory review of product and INDs.
- Attending physician and consultant in pediatric rheumatology clinic at Walter Reed Army Medical Center.
- Frequent Advisor to physicians and patients throughout the world, patient support groups, DHHS agencies, and colleagues at medical schools in the evaluation and care of challenging patients with pediatric rheumatic diseases, and in review of scientific activities related to autoimmunity in children.

Sept 1993 - **Medical Officer**, Division of Cellular and Gene Therapies, CBER, FDA, Bethesda, MD
Sept 1996

Duties/Accomplishments:

- Planned and initiated two large nationwide studies of juvenile myositis.
- Principal investigator of NIH juvenile myositis research protocol.
- Saw complex patients in research study and communicated results to referring physicians. Attending physician and consultant in pediatric rheumatology clinic at Walter Reed Army Medical Center.
- Participated in laboratory research studies of autoantibodies and immunogenetics of adult and juvenile

myositis.

- Supervised and mentored three students, including Dr. Ejaz Shamim, who received the American College of Rheumatology Medical Student Research Fellowship Award (1995).
- Product and clinical reviewer of biologic therapeutic agents. FDA Rheumatology Working Group and Pediatric Use Working Group. Consultant to Agency on pediatric rheumatic disease issues. Co-chair of FDA workshop on juvenile rheumatoid arthritis (1996).

CLINICAL RESPONSIBILITIES AND HOSPITAL APPOINTMENTS

2001 – present	Senior Clinical Staff, NIEHS, National Institutes of Health, Bethesda, MD
April 2008 – present	Attending Physician, Myositis Clinic, Division of Rheumatology, George Washington University (2 days/month)
Dec 2005 – June 2007	Visiting Consultant and Attending Physician, Rheumatology, Children's National Medical Center (1 day/month)
1994 – Aug 2005	Attending Physician, Pediatric Rheumatology, Walter Reed Army Medical Center, Washington, DC (1 – 2 days/month)
Oct 1993 – 2001	Junior Clinical Staff, NIAMS, National Institutes of Health, Bethesda, MD (varying: 1 day/month – 1 day/week)

ACADEMIC APPOINTMENTS

Sept 2008 –present **Clinical Professor**, Department of Medicine, George Washington University, Washington, DC

Duties/Accomplishments:

Attending physician and consultant in Myositis Clinic at George Washington University, which receives nationwide and worldwide referrals for juvenile myositis and other myopathies. Supervise, teach and lecture adult rheumatology fellows, pediatric residents (including Walter Reed Army personnel) rotating through clinic. Consult on research projects on environmental factors for disease flare, health care transitioning, therapeutic trials and imaging studies.

Adult Rheumatology fellows and occasional pediatric residents and medical students train in the clinic: fellows:

Sam Serafi MD 2015 – 2017; Dareen Almanabri MD 2014 – 2016, Jonathan Miller MD 2014 – 2016, Heidi Hanna MD 2013 – 2015, Mahsa Tehrani, MD 2012 – 2013; Tina Shah, MD 2011-2013; Anupam Chahal, MD 2010-2012; Seema Agrawal, MD 2009-2011; Shiraz Moinuddin, MD 2008-2010; Olena Guzhva, MD 2007-2009; Geeta Nayyar, MD 2008

Sabbatical Professor Erkan Demirkaya (2013-2014)

Nov 2010 – present **Adjunct Professor**, Department of Pediatrics, Uniformed Services University of Health Sciences (USUHS) Bethesda, MD

Nov 2002 – Oct 2010 **Adjunct Associate Professor**, Department of Pediatrics, Uniformed Services University of Health Sciences (USUHS) Bethesda, MD

Mar 1994 - Nov 2002 **Assistant Professor**, Department of Pediatrics, Uniformed Services University of Health Sciences, Bethesda, MD

Duties/Accomplishments:

Attending physician and consultant in Pediatric Rheumatology Clinic at Walter Reed Army Medical Center, which receives nationwide and worldwide referrals for military personnel. Supervise, teach and lecture adult rheumatology fellows, pediatric residents, USUHS medical students rotating through clinic. Consult with military physicians in US and worldwide (esp. Germany) on issues of care of complex patients with pediatric rheumatic diseases.

July – Aug 1993 **Acting Instructor**, Div of Immunology/Rheumatology, Department of Pediatrics, Univ. Washington/Children's Hospital and Medical Center, Seattle, WA

US PUBLIC HEALTH SERVICE APPOINTMENTS AND ACTIVITIES

Captain (7/05 – present); Permanent Captain (7/07 – present)

Permanent Commander (9/03 –7/05)

Assimilation into Regular Corps: Permanent Lieutenant Commander (4/12/02 – 9/03)

Commander (7/98 – 4/02)

Lieutenant Commander (10/91 – 6/93, 9/93 – 7/98)

Senior Assistant Surgeon (2/28/91 – 10/91)

Commissioned as a Corps Officer 2/28/91.

Commissioned Corps Readiness Force (December 2003 – present)
 Status: Active; Roster: Fully Deployable
 Training/Skills: Completed 14 basic readiness level core training modules and 6 FEMA modules
 BLS certified. President's Fitness Challenge (completed August, 2004 and Dec 2006, Dec 2013)
 Deployments: President Ronald Reagan State Funeral (June 2004)
 Promotion Board (date of service confidential)
 Mentor to Medical Officers, Physician's Professional Advisory Committee (2004 - 2009)
 Physician's Professional Advisory Committee Subcommittee on Mentoring (2004 - 2009)
 Public Health Service Medical Review Board member (June 2002, December 2003, February 2014, July 28, 2015)
 Commissioned Officers Association (2003 – present)

CERTIFICATION

Pediatric Advanced Life Support (2007 - present)
 Basic Life Support, American Heart Association (2003 – present)
 American Board of Pediatrics, Certification in Pediatric Rheumatology (1994 - 2001, recertified for 2002 – 2008, Certificate No 000113; recertified 2009 – 2015, certificate No. 00113)
 American Board of Pediatrics (1990, re-certified for 1998 - 2004, Certificate No. 045457)
 FLEX (1987)

PROFESSIONAL LICENSE

Maryland, #D46950, 12/30/94 - present (expires 9/30/2017)
 District of Columbia, #MD19164, 1991 - April, 1997; # MD035811, 10/27/2005 – 12/31/2014
 Virginia, #0101052145, 3/1/95 - 6/30/96
 Washington, #MD00027469, 06/90 - 2/14/94
 Federal DEA Registration Number, #BR5314543
 State Controlled Substance Numbers: MD M40025, expires 5/31/2015, DC CS06-10806
 National Provider Identifier 1669566691

HONORS AND AWARDS

2013 NIEHS Intramural Papers of the Month- September and November: Ultraviolet radiation exposure associated with clinical and autoantibody phenotypes in juvenile myositis; Genome-wide association study of dermatomyositis reveals genetic overlap with other autoimmune disorders

2012 Affiliated Member, Madison's Who's Who

2011 Physician Researcher of the Year, US Public Health Service Physician's Professional Advisory Committee

2009- 2016 Best Doctors

2009 Selected for listing in *Women in Science at the National Institutes of Health* (2007-08 ed), published by Office of Research on Women's Health

2008, 2009, 2012 America's Top Pediatricians (Consumer's Research Council of America)

2007 Hero Certificate, Cure JM Foundation ("For dedication to finding a cure for juvenile myositis")

2006 Elected member of the Henry Kunkel Society

2006 Certificate of Appreciation, US Public Health Service ("For exceptional performance in response to the USPHS Transformation objectives and mission by developing resources to mentor the professional development of Commissioned Corps physicians")

2006 Ann Hengel Lecturer in Pediatric Rheumatology. Medical College of Wisconsin, Milwaukee, Wisconsin. April 28, 2006.

2005 – 2010 Who's Who in America

2005, 2006 Who's Who of American Women

2004 Commendation Medal, US Public Health Service ("For superior service in identifying the presence of microchimerism in juvenile-onset myositis")

2004 – 2009 Who's Who in Medicine and Healthcare

2004 National Register's Who's Who, Executive and Professionals 2004 – 2005 edition

2003 Schlager Family Visiting Professor Lectureship in Juvenile Dermatomyositis, Children's Hospital, Boston, MA, April 30, 2003

2002 Regular Corps Ribbon, US Public Health Service

2001 National Registry of Who's Who, Published 2001 edition

2000	Commendation Medal, US Public Health Service (“For exemplary performance of duty” in clinical review and policy development)
1999	Outstanding Unit Citation, US Public Health Service (“For innovative collaboration with academia, industry and the public in the development of programs for the treatment of rheumatoid arthritis”)
1999	Unit Commendation, US Public Health Service (“For significant and exceptional performance in the review and licensing of new anti-TNF therapies for autoimmune disease”)
1998	Achievement Medal, US Public Health Service (“For validating the usefulness of clinical tools to assess disease activity in juvenile myositis with implications for many other pediatric and orphan diseases”)
1998	Bicentennial Unit Commendation, US Public Health Service
1985-86	Eugene Stead Research Fellowship, Duke University School of Medicine
1983	Phi Beta Kappa, Summa cum laude, Duke University

PROFESSIONAL ORGANIZATIONS

Society for Clinical and Translational Science (2009- present)
Henry Kunkel Society (2006 – present)
Clinical Immunology Society (2006 – present)
Section on Environmental Health, American Academy of Pediatrics (2004 - present)
Section on Uniformed Services, American Academy of Pediatrics (2000 - present)
American Medical Association (1996 - present)
Pediatric Rheumatology Subsection, American College of Rheumatology (1994 - present)
Section on Pediatric Rheumatology, American Academy of Pediatrics (1994 - present)
Washington DC Rheumatism Society (1991 – 1994, 2003 - present)
American College of Rheumatology (1990 - present)
American Academy of Pediatrics, Pediatric Rheumatology Section (1990 - present)

PROTOCOL INVESTIGATIONS

Principal Investigator, Studies in the Natural History and Pathogenesis of the Idiopathic Inflammatory Myopathies of Childhood, NIEHS, National Institutes of Health, Bethesda, MD (NIEHS 94-E-0165) (1994 – 2001 as NIAMS protocol, 2001 – present as NIEHS protocol)
Associate Investigator, Compassionate Use Treatment Protocol I4V-MC-JAGA; Treatment of Autoinflammatory Syndromes Expected to Benefit from JAK Inhibition (NIAMS 12-AR-8001) (2014- present)
Associate Investigator, Environmental Risk Factors for the Development of Myositis in Military Personnel (2012 – present)
Associate Investigator, Novel Drug Delivery of Sodium Thiosulfate for Calcinosis Associated with Adult and Juvenile Dermatomyositis (George Washington University), (2012 – present)
Associate Investigator, Studies of the Natural History, Pathogenesis, and Outcome of Autoinflammatory Diseases (NOMID / CAPS, DIRA, CRMO, Still’s Disease, Behcet’s Disease, and other Undifferentiated Autoinflammatory Diseases), (NIAMS 03-AR-0173 (2011- present)
Associate Investigator, “MYOVISION: A Registry for Patients with Adult or Juvenile Myositis” (2010 – present)
Associate Investigator, “Environmental Risk Factors for the Anti-Synthetase Syndrome (MYORISK)” (NIEHS 11-E-0072) (2010- present)
Associate Investigator, Environmental Exposures and Disease Flare in Adult and Juvenile Dermatomyositis and Polymyositis, George Washington University (2010 – present)
Lead Associate Investigator, “Rituximab in the Treatment of Refractory Adult and Juvenile Dermatomyositis and Adult Polymyositis” (NIEHS 07-E-0012) (2006 – present)
Associate Investigator, “Studies in the Natural History and Pathogenesis of Adult Myositis” (NIAMS 91-AR-0196), (2005 – present)
Lead Associate Investigator, “Pathogenic Studies in Families with Twins or Siblings Discordant for Systemic Rheumatic Disorders” (NIEHS 03-E-0099) (2003 – present)
Lead Associate Investigator, “Studies in the Natural History and Pathogenesis of Autoimmune/Connective Tissue Diseases” (FDA RIHSC CBER #121; NIEHS 05-E-N200) (1994 – present); Protocol includes Principal Investigator, Childhood Myositis Heterogeneity Collaborative Study, a registry of over 400 juvenile idiopathic inflammatory myopathy patients with clinical information, cell and serum bank, limited biopsy specimens.
Associate Investigator, Health Care Transitioning for Pediatric Myositis Patients, George Washington University (2009 – 2013)
Associate Investigator, “Studies on Tissues from Patients with Fibrous Dysplasia of Bone/McCune Albright Syndrome and Other Disorders of Calcified Tissues” (NIDR 97-D-0055) (2002 – 2008)

Associate Investigator, "A Randomized, Double-Blind, Placebo-Controlled Trial of Infliximab in Patients with Dermatomyositis and Polymyositis" (NIAMS 02-AR-0156) (2002 – 2008)

GRANT SUPPORT

2015 – 2017 Supervisor for Research Fellowship of Dr. Takayuki Kishi, The Myositis Association (\$100,000 salary support and benefits for 2 years; no funds being received by me or NIEHS)

2015 – present George Washington University Myositis Center- Bristol Myers Squibb support for Abatacept trial in juvenile dermatomyositis, Dr. Rodolfo Curiel, director (10% effort)

2015 – 2017 George Washington University Myositis Center- Cure JM Foundation support, Dr. Rodolfo Curiel, director (\$325,200) (10% effort)

2013 - 2014 Cure JM Foundation gift to NIEHS to support studies of juvenile myositis (\$37,000)

2013 – 2014 Funding for ACR-EULAR Consensus Conference for the Development of Response Criteria for Adult and Juvenile Myositis (\$60,000 from NIH Office of Rare Diseases, NIEHS, NIAMS, Cure JM Foundation, UK Myositis Support Group and The Myositis Association)

2012 – 2015 Co-Principal Investigator, ACR-EULAR grant, "Development of Response Criteria for Adult and Juvenile Myositis" (\$130,000)

2011 – 2016 Co-Investigator, "Potential Environmental Triggers of Myositis", The Myositis Association, from a cooperative agreement with the Department of Defense (W81XWH-11-1-0730) (\$596,575) (10% effort)

2009 – 2012 "The Myositis Genetics Consortium (MYOGEN)" Cure JM Foundation support - \$75K/yr. This project is identifying new genetic risk and protective factors for myositis via genome-wide association studies. (5% effort)

2008 –2014 George Washington University Myositis Center- Cure JM Foundation support - \$100 - \$150K/yr (10% effort)

2005 - 2009 American College of Rheumatology, Development of Outcome Measures for Myositis (\$15,000 to support database development and management)

2006 - 2009 Inter-agency agreement, NIAMS, Rituximab Therapy in Refractory Adult and Juvenile Idiopathic Inflammatory Myopathies (NIEHS as enrollment site, \$515,586)

2004 – 2007 Supervisor for Research Fellowship of Dr. Gulnara Mamyrova, Cure JM Foundation (salary support for 3 years; no funds being received by me or NIEHS)

2002 – 2004 Supervisor for Research Fellowship of Dr. Gulnara Mamyrova, The Myositis Association (salary support for 2 years; no funds being received by me or NIEHS)

2001, 2002 Co-Principal Investigator, NIH Office of Rare Diseases and NINDS funding for 2 workshops on Outcome Assessment and Clinical Trial Design in the Idiopathic Inflammatory Myopathies (\$25,000 each year).

2001 – 2002 Co-Investigator, NIAMS R21 grant to Dr. Ann Reed, "Finalization of Outcomes and Design Issues for Myositis Trials" (\$83,000; no funds being received by me or NIEHS)

1985-86 Pharmaceutical Manufacturer's Medical Student Research Fellowship in Pharmacology-Clinical Pharmacology

COMMITTEES AND SCIENTIFIC LEADERSHIP EXPERIENCE

Chair, Steering Committee, Response Criteria Project for Adult and Juvenile Dermatomyositis and Polymyositis (2012 – 2015)

Medical Advisor to aTyr, MedImmune, and Idera Pharmaceuticals (2014 – present)

Scientific Committees, First International Conferences on Myositis, Stockholm Sweden (2015); Second in Washington DC (2016-17)

NIEHS Clinical Advisory Committee (ad hoc 2009- 2013; member 2014- present)

NIEHS Inflammation Cross-Divisional Implementation Planning Committee, and Autoimmunity Subcommittee (2012 – 13)

Cure JM Foundation Medical Advisory Committee (2011 – present)

NIEHS Committee on Promotions IV (2011 – 2014)

James T. Cassidy Award Selection Committee, American Academy of Pediatrics (2009 – 2012), Chair 2010-12

Alternate representative, NIH Clinical Center Medical Executive Committee (2008 – present)

Member and lead investigator of pediatric studies, International Myositis Genetics Consortium (MyoGen) (2006 – present)

The Myositis Association: Medical Advisory Board Member (1996 - 2009); Vice Chair of Medical Advisory Board (2005 – 2007), Chair, Nominating Committee (2001 –2006), Research Committee (2006 - 2008), Chair, Research Committee (2008-09); Registry Committee (2009 – 10)

Steering Committee, ACR-EULAR International Myositis Classification Criteria Project for the Idiopathic Inflammatory Myopathies (2004 – present)

Consultant to Industry/Sponsors on development of clinical trials for adult and juvenile dermatomyositis and polymyositis

(2004 to present)
NIEHS representative, NIH Clinical Research Center Pediatric Partners Care Team (2003 – present)
NIEHS representative to NIH Pediatric Care Committee (2002 – present); Subcommittee on Normal Childhood Laboratory Values (2003- 2008); Subcommittee on Infection Control Policies at Children's Inn (2004 – 2005)
NIEHS Code Red Team member for NIH Clinical Center; Designated evacuation safety leader for EAG, organizing annual safety and evacuation training (2003 – present)
Steering Committee, Trial of Rituximab in Adult and Juvenile Idiopathic Inflammatory Myopathies (2002 – present); Publications Committee (2010- present)
Childhood Arthritis and Rheumatology Research Alliance (CARRA), Member: Juvenile Dermatomyositis Scientific Group, Translational Research Working Group (2002 – present); Disease registry working group (2008- present); Chair, Juvenile Dermatomyositis Data Repository Working Group (2009- present)
Member and NIH Representative, Advisory Council, Pediatric Rheumatology Collaborative Study Group (2001 – present), Member Senior Advisory/Integration Committee with CARRA (2011- present)
Member, NIH Translational Research Interest Group (2009 – present), Pediatric Consortium (2001 – present), NIH Muscle Interest Group (2001 – present)
Resource Committee, NIH Clinical Center Barriers to Clinical Research Working Group (2008)
Pediatric Rheumatology Study Section Chair, American College of Rheumatology (2006 – 2009)
Communications Committee, Clinical Immunology Society (2006 – 2009)
Editorial Board, Table of Biologic Therapies, Clinical Immunology Society (2008 – 2009)
Executive Council, Pediatric Subsection, American College of Rheumatology (2003 – 2007); Vice Chair (2006 – 2008)
Consultant, NIH Consensus Development Project on Criteria for Clinical Trials in Chronic Graft-versus-Host Disease (2004 – 2007)
Children's Longitudinal Environmental Health Study (National Children's Study), Immunity, Infections and Vaccines Working Group (2002 – 2005)
Member, Search Committee for NIEHS Staff Clinician (2001 – 2002; 2009-2010)
Co-Chair and Co-Founder, International Myositis Assessment and Clinical Studies (IMACS) Collaborative Study Group (2000 - present). Organizer of 3 international IMACS Workshops (2001-2003) and annual meetings. Developed IMACS internet site to make publicly available IMACS outcome measures, training modules and a database repository of myositis clinical trials.
Abstract Selection Committee, Pediatric Rheumatology (1998), Myositis/Myopathies (2002, 2004, 2010, 2012), American College of Rheumatology
Meeting Organizer and Co-Chair, FDA Juvenile Rheumatoid Arthritis Workshop, Bethesda, MD (July 23, 1996)
Advisor, the National Dermatomyositis Support Group, 1994-1996
Juvenile Dermatomyositis American College of Rheumatology Working Group (founding chair) (1993 - 1999)

FDA Regulatory Activities

Vaccine and Related Biologic Products Advisory Committee, Safety and Efficacy of HPV Bivalent (Types 16 and 18) Vaccine for the Prevention of Cervical Cancer, Sept 9, 2009, Gaithersburg, MD
Special Government Employee Consultant to FDA, Center for Biologics Evaluation and Research (CBER), Food and Drug Administration (FDA), Bethesda, MD (2003 –2005): consultant on INDs for biologic therapies in children with pediatric rheumatic diseases
Guest Worker (Special Government Employee Consultant to FDA under Inter-Agency Agreement), Center for Biologics Evaluation and Research (CBER), Food and Drug Administration (FDA), Bethesda, MD (2001 - 2002): consultation on INDs for biologic and drug therapies in children with pediatric rheumatic diseases and consultation on immune-mediated adverse events to biologic therapies and vaccines.
Product Reviewer, Division Monoclonal Antibodies (1996 – 2001) and Division of Cellular and Gene Therapies (1993 – 1996), Office of Therapeutics Research and Review (OTRR), CBER, FDA
Adjunct Clinical Reviewer, Division of Clinical Trial Design and Analysis, OTRR, CBER, FDA (1994 – 2001), including chair of licensure committee for Etanercept in JRA, IND reviewer or consultant for multiple INDs of biologic therapies for patients with pediatric and adult rheumatic diseases; development of phase 4 studies for juvenile rheumatoid arthritis (JRA); and post-marketing adverse event review for biologic therapies and vaccines
Consulting Clinical Reviewer for CBER, Center for Drugs (CDER) and Center for Devices (CDRH), FDA (1994 – 2001): Division of Anti-Inflammatory Drugs, CDER (clinical trials of drugs for JRA, licensure applications and labeling issues for licensure of methotrexate, sulfasalazine and cyclosporine for JRA); vaccine-associated immunologic adverse events; pediatric labeling for blood products; pediatric rheumatic diseases associated with silicone implants
Pediatric Clinical Trial Guidance Document (1999): Authored section on adverse event assessment and clinical trial outcome measures.

FDA Representative, Advisory Council, Pediatric Rheumatology Collaborative Study Group (1998- 2000)
CBER Rheumatology Focus Group, Food and Drug Administration (1996 - 2001)
Rheumatology Working Group, Food and Drug Administration (1995 - 2001) - author of Rheumatoid Arthritis and Systemic Lupus Erythematosus Guidance Documents, particularly pediatric policies. Co-chaired and organized workshop on juvenile rheumatoid arthritis (1996)
Pediatric Use Working Group, Food and Drug Administration (1995 – 1998). Participated in drafting revisions of 1998 Pediatric Regulation.

EDITORIAL AND REVIEW BOARD ACTIVITIES

Member, National Institute of Environmental Health Sciences Institutional Review Board (June 2010 – present)

Editorial Boards: *Associate Editor, Annals of Pediatric Rheumatology* (2011 – present)

Journal of Neuromuscular Diseases (2013 – present)

International Journal of Rheumatology (2010 – present)

World Journal of Rheumatology (2011 – present)

The Open Arthritis Journal (2008 – 2012)

The Open Rheumatology Journal (2007 –2012)

Co-Editor, *Myositis and You: A Complete Family Guide to Juvenile Dermatomyositis and Other Inflammatory Myopathies*, The Myositis Association, Washington, 2007.

Ad hoc reviewer: *Arthritis and Rheumatism, Arthritis Care and Research, Annals Rheumatic Diseases, PLoS One, Lancet, British Medical Journal, Arthritis Research and Therapy, Rheumatology, Clinical and Experimental Rheumatology, Nature Reviews Rheumatology, Nature Reviews Neurology, Pediatrics, Muscle and Nerve, Journal of Neuroimmunology, Journal of Rheumatology, Clinical and Experimental Rheumatology, Journal of Pediatric Rheumatology, Seminars in Arthritis and Rheumatism, Scandanavian Journal of Rheumatology, Journal of Pediatrics, Journal of Clinical Rheumatology, International Journal of Clinical Rheumatology, Archives of Dermatology, Pediatric Dermatology, British Journal of Dermatology, Expert Opinion on Drug Safety, Neuromuscular Disorders, Lupus, Clinical and Developmental Immunology, Journal of Molecular Diagnostics, Biomarkers in Medicine, Disease Biomarkers*

Grant reviews:

Arthritis Research UK (2013)

EU-Rare JTC 2013 - European Research Projects on Rare Diseases European Union (2013)

Action Medical Research and Medical Research Council, UK (2012)

NIAMS Special Emphasis Panel – Clinical Trial Proposals (2011)

American College of Rheumatology Research and Education Fund (2008)

Prinses Beatrix Fonds (2008)

The Myositis Association (2002 – 2008), Research Review Committee (2006- 2008); Chair, Research Review committee (2008-09)

NIAMS RO1 applications (2004)

NIAMS PO1 Program Project Grant Applications (2002)

Univ Pittsburgh NIAMS Multipurpose Arthritis Center Development and Feasibility grants (2000)

Data Safety Monitoring Board, Ingested Interferon Alpha: Prolongation of Permanence of the “Honeymoon” Phase in Newly Diagnosed Diabetes Mellitus (01-DK-0249) (2002 – 2006)

Consulting reviewer, NIAMS/NIDDK/NIEHS Institutional Review Board (2001 - present)

Advisory Committee, NIH/Hospital for Joint Diseases Registry for Neonatal Lupus (1994 - present)

PUBLICATIONS

Publications in Refereed Journals:

1. Abramson, S., H. Korchak, R. Ludewig, H. Edelson, K. Haines, R.I. Levin, **L. Rider**, and G. Weissmann. Modes of action of aspirin-like drugs. *Advances in Inflammation Research* 1985; 10: 31-35.

INVITED LECTURES AND SELECTED PRESENTATIONS

“Clinical and Autoantibody Phenotypes of Juvenile Myositis and Associated Outcomes”, and “Improvement Criteria for Adult and Juvenile Myositis: Background on Methodology”, and Steering Committee member, First International Conference on Myositis, Stockholm, Sweden, May 8-11, 2015

“Clinical and Autoantibody Phenotypes of Juvenile Myositis”, American College of Rheumatology meeting, Boston, MA, November 17, 2014

“Update on the Proposed New Endpoints from the Myositis Consortium”, Pharmaceutical Medical Advisory Board meeting, Baltimore, MD, November 10, 2014

“Assessment of JDM”, Juvenile Myositis: A 2014 Update on Care and Research: Cure JM Medical Conference, Stanford University, October 3, 2014

“Toward a Better Understanding of Adult and Juvenile Myositis: Phenotype, Phenotype, Phenotype”. Invited keynote speaker, University of Pennsylvania Rheumatology Research Training Day, Philadelphia, PA, June 17, 2014

Meeting organizer, co-lead Pediatric Working Group, and speaker at International Consensus Conference to Develop Improvement Criteria for Juvenile Dermatomyositis and Adult Dermatomyositis and Polymyositis”, June 9-10, 2014, Paris France: “Prior Approaches: IMACS Core Set Measures and Preliminary Definitions of Improvement for Adult DM/PM and Juvenile Dermatomyositis”, “Development of New Definitions of Improvement for Myositis: Background on the Current Project”, “Presentation of Top Performing Newly Developed Definitions of Minimal Clinical Improvement and Moderate and Major Clinical Response”, “Combined Group Discussion of Results/Problem Areas from the Workshop, and Future Plans”

“IMACS Activity and Damage Measures” and “International Myositis Collaboration”, Invited keynote speaker, Canadian Inflammatory Myopathy Consortium meeting, Montreal, Canada, May 16, 2014

“The Phenotypes of the Idiopathic Inflammatory Myopathies”, Medicine Grand Rounds, Washington Hospital Center, Washington DC, April 9, 2014

Meet the Professor Roundtable on Juvenile Dermatomyositis, ACR Pediatric Rheumatology Symposium (PRSYM), Orlando, FL, April 5, 2014

“International Myositis Classification Criteria for Adult and Juvenile Myositis” and “ACR-EULAR Myositis Response Criteria Project”, CARRA meeting, April 2, 2014, Orlando, FL

“Unraveling the Mysteries of Genes and the Environment in Children with Myositis”, DIR Council, Bethesda, MD, February 11, 2014

“Myositis Phenotypes and the Environmental Connection”, Autoimmune Disease Network Symposium, University of Calgary, Alberta, Canada, January 31, 2014

“Assessment and Treatment of Juvenile Myositis”, Calgary Children’s Hospital, Alberta, Canada January 31, 2014.

“Heterogeneity of Juvenile Myositis” and “Physical Therapy for Juvenile Myositis”, Cure JM Conference, July 19-20, 2013, Chicago, IL

“International Myositis Classification Criteria for Adult and Juvenile Myositis” and “ACR-EULAR Myositis Response Criteria Project”, CARRA meeting, April 21, 2013, Chicago, IL

Meeting co-organizer, International Myositis Classification Criteria project, November 9, 2012, Bethesda, MD

“The Clinical and Autoantibody Phenotypes of Juvenile Myositis” and “Focus on Disease Diagnostics: Muscle Strength and CMAS Testing”, Cure JM Conference, October 12-13, 2012, Baltimore, MD

“Clinical Presentations and Diagnosis of Juvenile Myositis”, Cure JM Health Professions Meeting, Johns Hopkins University, Baltimore, MD, October 11, 2012 (and Expert for Educational Forum on Juvenile Myositis)

“Meet the Professor: Treatment of juvenile inflammatory myopathies” and Lecture: “Treatment of Severe Juvenile Dermatomyositis”, XXIX Brazilian Congress of Rheumatology, Vitoria, Brazil, September 21, 2012

“Myopathies: from Bedside to Bench”, Pre-conference course, XXIX Brazilian Congress of Rheumatology, Vitoria, Brazil, September 20, 2012

“Adult and Juvenile Idiopathic Inflammatory Myopathies”, Department of Medicine Grand Rounds, George Washington University, Washington, DC, May 31, 2012

Session Chair, Environmental Issues, "Sex, Gender and Autoimmunity Through the Lifespan", American Autoimmune Related Diseases Association (AARDA), Chicago, IL, May 17, 2012

Congressional Briefing: "Environmental Factors in Autoimmune Disease" as part of "Multi-Generational Impact of Autoimmune Disease: America's Silent Health Crisis", Rayburn Building, Washington DC, March 28, 2012

"How to Assess and Treat Myositis", Excellence in Rheumatology meeting, Madrid, Spain, January 27, 2012

Congressional Briefing, "Environmental Factors in Pediatric Autoimmune Diseases", as part of Children's Environmental Health briefing, Capitol Visitor's Center, Washington DC, October 27, 2011

"JM News from the NIH: Genetic and Environmental Studies", Cure JM Conference, Seattle, WA June 24, 2011

"Juvenile Myositis: From Seattle's Bedside to Bethesda". Pediatric Grand Rounds, Children's Hospital and Medical Center, Seattle, WA. June 23, 2011. (and Expert for Educational Forum on Juvenile Myositis)

"Cutaneous Assessment Tools for Dermatomyositis", "International Myositis Classification Criteria Project", "NIEHS Twin Sibling Study", "TMA's Myovision Registry". CARRA meeting (JDM Working Group), Miami, FL, June 1-2, 2011

"Juvenile Myositis: A Clinical and Research Update", Pediatric Grand Rounds, Hackensack University Medical Center, Hackensack, NJ, May 12, 2011

"Practice Potpourri: What should I tell my patient with polymyositis who wants to exercise and lift weights?" American Rheumatology Health Professionals, Atlanta, GA, November 9, 2010

"Making the Most of Your Fellowship Training", American College of Rheumatology Fellows-in-Training mentoring session, Atlanta, GA, October 30, 2010

"Myositis Autoantibody Phenotypes and the Environmental Connection", Pediatric Rheumatology European Society, Valencia, Spain, September 11, 2011

"Juvenile Dermatomyositis: A Research Update", Pediatric Grand Rounds, Uniformed Services University of the Health Sciences, Bethesda, MD, April 8, 2010

"Phenotypes as Clues to Deciphering the Pathogenesis and Treatment of Myositis", NIH Clinical Center Grand Rounds, Bethesda, MD, February 24, 2010

Invited participant, Educational Forum, "Potential Complications of Juvenile Myositis" and "Research Update from NIH: Genetic and Environmental Factors", Cure JM Foundation. Austin, TX, February 13, 2010

Rheumatism Society of Houston, Invited Lecture, and Grand Rounds, University of Texas at Houston, Houston, TX, August 24, 2009

Rheumatology Grand Rounds, Georgetown University Medical Center June 16, 2009

Invited participant and co-chair, Research opportunities breakout session, Food and Drug Administration Public Workshop on Developing a Consolidated Pediatric Rheumatology Observational Registry, Silver Spring, MD May 12-13, 2009

"Juvenile myositis: A research update". Cure JM 5th anniversary meeting, January 25, 2008, Carlsbad, CA.

"Clinical Databases: Setup and Maintenance for Clinical Data Sharing", NIAMS Conference on SAPHO/Bechet's, Bethesda, MD, September 4, 2008

"Adult and Juvenile Myositis", George Washington University Rheumatology lecture series, July 18, 2008; August 7, 2009

Participant, Career as a Pediatric Rheumatologist and Clinical Researcher, Lucy Barnsley Elementary School Career Day, Rockville, MD, May 2007 and May 30, 2008

"Components and Predictors of Damage in Juvenile Myositis Using the Myositis Damage Index", American College of Rheumatology Pediatric Rheumatology Meeting, Keystone, CO, March 4, 2008

"Ask the Expert: Online Chat on Juvenile Myositis", The Myositis Association, February 22, 2008

Invited Participant, CARRA Consensus Conference to Develop Treatment Protocols for Juvenile Dermatomyositis, November 30 – December 2, 2007, Toronto, Canada

Department of Pediatrics Grand Rounds, Children's Memorial Hospital, Northwestern University School of Medicine, "Juvenile Myositis: A Research Perspective", Chicago, IL, November 16, 2007

"Rheumatic Disease Update: Adult and Juvenile Dermatomyositis/Polymyositis", American Rheumatology Health Professionals, Boston, MA, November 10, 2007

Cure JM Foundation Educational Forum and Panel Discussion, "Juvenile Myositis: Assessing Outcomes and Potential New Therapies", Arlington, VA, October 27, 2007

Department of Pediatrics Grand Rounds, Georgetown University School of Medicine, "Juvenile Myositis: A Clinical Update", Washington DC, May 11, 2007

Rheumatology Grand Rounds, George Washington University School of Medicine, "Juvenile Myositis", Washington DC, March 29, 2007

Clinical Immunology Society School for Autoimmune Diseases, "Immunogenetic and Environmental Risk Factors for Juvenile Myositis". Faculty, March 14 -18, 2007, Santa Fe, New Mexico.

"IMACS Clinical Data Repository" and Chair, IMACS/JDM Working Group Breakfast Meeting, November 14, 2006, Washington, DC

American College of Rheumatology, Pediatric Study Section, "Immunogenetic and Environmental Risk Factors for

Juvenile Myositis", Washington DC, November 13, 2006

Rheumatology Grand Rounds, Georgetown University School of Medicine, "Juvenile Myositis", Washington DC, October 25, 2006

Ann Hengel Lecture in Pediatric Rheumatology. "Juvenile Dermatomyositis" Medical College of Wisconsin, Milwaukee, Wisconsin. April 28, 2006.

Clinical Immunology Society School for Autoimmune Diseases, "Juvenile Myositis". Faculty, March 15 -18, 2006, Santa Fe, New Mexico.

Invited Alumni Panelist, "Medicine and Research", Duke University Career Week, January 28, 2006, Durham, NC.

American Academy of Pediatrics Workshop, "Juvenile Dermatomyositis Dilemmas: A Case of Flare Following Remission". November 15, 2005, San Diego, CA.

Meeting co-organizer and presentation of "IMACS Internet Site" and "IMACS Outcomes Repository", November 13, 2005, San Diego, CA.

Rituximab in Myositis Investigator's Meeting, "Core Set Measures, including the MMT8, and the Definition of Improvement", and "Rituximab in Myositis Study Protocol" October 29, 2005 and February 6, 2006, Bethesda, MD.

The Myositis Association Annual Conference. Medical Panel: "TMA's Research Program and Funded Research on Juvenile Myositis" and Workshop on "Juvenile Myositis", October 8, 2005, Cleveland, OH.

American Juvenile Arthritis Organization National Conference. "Juvenile Dermatomyositis" Workshop and Roundtable Discussion, July 29, 2005, Providence, RI.

Rheumatology Grand Rounds, University of Pittsburgh, Pittsburgh, PA. November 12, 2004.

"Classification of Juvenile Myositis", Working Group meeting on the Classification of Idiopathic Inflammatory Myopathies, October 26, 2004, Bethesda, MD; Meeting co-organizer for Working Committee meeting, November 11, 2005, Dulles Airport, VA.

"IMACS Internet Site and Clinical Data Repository" and Chair, IMACS Breakfast Meeting, October 18, 2004, San Antonio, TX

"Juvenile Myositis Handbook", The Myositis Association, Conference on Juvenile Myositis, May 9, 2004, Bethesda, MD.

Rheumatology Grand Rounds, Hospital for Special Surgery, Cornell Medical College, NY, NY, February 11, 2004

Invited Alumni Panelist, Duke University Career Week, Durham, NC, January 31, 2004 (sessions on Science and Research, Women and Leadership).

"Meet the Professor: Juvenile Dermatomyositis", American College of Rheumatology meeting, November 12/13, 2001, San Francisco, CA; October 26/27, 2002, New Orleans, LA; October 27-29, 2003; Orlando, FL; October 25/27, 2003, Orlando, FL.

American College of Rheumatology meeting, October 28, 2003, Orlando, FL: Presentation of paper, "Preliminary Definitions of Improvement for Juvenile Myositis"

Meeting Co-Organizer and Presentation of several papers ("Summary of IMACS Definitions of Improvement", "Future Plans for IMACS" Workshop"), IMACS Meeting, October 27, 2003, Orlando, FL.

Invited Participant and Speaker, Pediatric Rheumatology International Trials Organization (PRINTO) International Consensus Conference on Defining Improvement in Juvenile Dermatomyositis. "IMACS Preliminary Definitions of Improvement for Juvenile and Adult Myositis". September 29 – 30, 2003, Camogli, Italy.

European League Against Rheumatism (EULAR) meeting, "Preliminary Definitions of Improvement for Adult and Juvenile Myositis" and moderated session on Difficult Cases of Myositis/Myopathies, June 20, 2003, Lisbon, Portugal

Invited Participant, Consensus Conference to Develop Criteria for Inactive Disease in Juvenile Rheumatoid Arthritis, May 3- 4, 2003 Marco Island, FL

Schlager Family Visiting Professor Lectureship in Juvenile Dermatomyositis April 30, 2003, Children's Hospital, Boston, MA: "Juvenile Idiopathic Inflammatory Myopathies: Lessons from the Children".

Rheumatology Grand Rounds, Brigham and Women's Hospital: Evaluation and Treatment of the Juvenile Idiopathic Inflammatory Myopathies, April 29, 2003, Boston, MA.

American Academy of Pediatrics Pediatric Rheumatology 2003: Park City and Beyond: General Session, "Preliminary Definitions of Improvement for Juvenile and Adult Myositis" (March 26, 2003); Meet the Expert, "Juvenile Dermatomyositis" (March 23, 2003); Concurrent Session, "The Development of Outcome Measures for Juvenile Dermatomyositis" (March 23, 2003), Snowmass, CO.

American College of Rheumatology meeting, Clinical Symposium, "Treatment of Refractory Juvenile Dermatomyositis", October 26, 2002, New Orleans, LA.

American College of Rheumatology meeting, October 29, 2002, New Orleans, LA: Presentation of 2 papers, "Extra muscular disease activity is frequent in adult and juvenile idiopathic inflammatory myopathies (IIM) and does not correlate with other myositis activity measures" and "Defining clinically relevant change in core set activity measures for adult and juvenile idiopathic inflammatory myopathies"

Meeting Co-Organizer and Presentation of several papers ("Summary of the First Workshop", "Top Candidate Definitions of Improvement for Adult and Juvenile Myositis", "Clinical Trial Design Issues", "Preliminary Study of Disease Damage

in Adult and Juvenile Myositis using the Myositis Damage Index”),
 2nd Workshop, Developing Consensus on Outcomes and Clinical Trial Design Issues in Adult and Juvenile Myositis, October 22 – 23, 2002, New Orleans, LA.

The Myositis Association Annual Conference. Medical Panel: “Similarities and Differences between Adult and Juvenile Idiopathic Inflammatory Myopathies” and Workshop on “Juvenile Myositis”, September 28, 2002, Atlanta, GA.

“Scoring of the Cutaneous Manifestations of the MITAX and Myositis Damage Index”; Presentation of Sample Cases of Global Activity and Damage Ratings, and Myositis Workshop Participant in two Myositis Outcome Measure Workshops, London, England (May 2002, March 2001).

“New Developments in the Juvenile Idiopathic Inflammatory Myopathies”, Grand Rounds, Department of Pediatrics, Stanford University, Palo Alto, CA, November 16, 2001.

American College of Rheumatology meeting, November 13, 2001, San Francisco, CA: Presentation of paper, “Lipodystrophy in juvenile dermatomyositis is associated with calcinosis, but not with adipocyte differentiation factor *dIk* levels

Meeting Organizer and Presentation of several papers on Core Set Outcome Measures in Adult and Juvenile Myositis, for International Workshop on Myositis Outcome Measures and Clinical Trial Design Issues: Defining Improvement in Adult and Juvenile Myositis. November 9-10, 2001, Palace Hotel, San Francisco, CA.

“Assessment of Disease Activity and Damage in Juvenile Dermatomyositis (JDM)”, and Invited Participant, International Consensus Conference to Define Core Sets of Outcome Measures for Juvenile Systemic Lupus Erythematosus and Juvenile Dermatomyositis, March 30 – April 4, 2001, Pavia, Italy

“Acquired Lipodystrophy associated with Autoimmune Diseases”, First International Workshop on Lipoatrophic Diabetes and other syndromes of Lipodystrophy, March 23, 2001, Bethesda, MD.

NIAMS Intramural Research Program Workshop on Pediatric Rheumatic Diseases, “Juvenile Dermatomyositis: Future Research Needs”, February 16, 2001, Bethesda, MD.

Joseph L Hollander Lectureship, Division of Rheumatology, “Pathogenesis of Dermatomyositis and Polymyositis” and “Myositis-specific and Myositis-associated Autoantibodies in the Juvenile Idiopathic Inflammatory Myopathies”, The Children’s Hospital of Philadelphia and University of Pennsylvania, January 17, 2001, Philadelphia, PA.

American College of Rheumatology Pediatric Subsection Meeting. “Clinical and Serologic Classification of Juvenile Myositis”, October 30, 2000, Philadelphia, PA.

Myositis Association of America Annual Conference. Workshop on Juvenile Myositis. October 14, 2000, Fairfax, VA.

FDA Arthritis Advisory Committee Presentation, Closed Session, Gaithersburg, MD, April 11, 2000.

NIAMS Workshop on Inflammatory Myopathies, April 5-6, 2000, Bethesda, MD: “Juvenile Myositis: Clinical Overview”.

Workshop: Hands on Approach to the Diagnosis and Management of the Child with Rheumatic Disease: Juvenile Dermatomyositis. American Academy of Pediatrics meeting, Washington DC, October 10, 1999.

VI Pediatric Rheumatology European Congress/EULAR, Glasgow, Scotland, June 6, 1999: “Classification and epidemiology of the juvenile idiopathic inflammatory myopathies”.

National Institutes of Health Clinical Center Grand Rounds, Bethesda, MD, May 27, 1999: “Lipodystrophy in Association with Autoimmune Disease” as part of Clinical Staff Conference: “The importance of Fat: Lipoatrophy, Insulin Resistance and Diabetes”, S. Taylor, moderator.

Moderator of Concurrent Session, Immunogenetics and Autoantibodies in Pediatric Rheumatologic Diseases, American College of Rheumatology meeting, San Diego CA, November 11, 1998

American Juvenile Arthritis Organization National Conference, July 24, 1998, Arlington, VA: □□ Me
 Juvenile Dermatomyositis and Mixed Connective Tissue Disease

Park City IV International Pediatric Rheumatology Meeting, Allied Health Professionals section, March 18, 1998, Park City, Utah, “Clinical Evaluation and Management of Childhood Myositis”

American Academy of Pediatrics, Rheumatology Subsection, November 2, 1997, New Orleans, LA: "The Spectrum of Childhood Inflammatory Myopathies"

Myositis Association of America Conference, October 4, 1997: "Workshop for parents of children with myositis".

FDA Arthritis Advisory Committee Meeting, February 4/5, 1997: "Juvenile Rheumatoid Arthritis and the Proposed Application of the Pediatric Use Regulation".

American College of Rheumatology Meeting, October 21, 1996, Orlando Florida: Presentation of paper, "Immunogenetic risk factors for juvenile idiopathic inflammatory myopathy"

Meeting Co-Chair, FDA Juvenile Rheumatoid Arthritis Workshop, July 23, 1996, Bethesda, MD

Grand Rounds, Dept of Rehabilitation Medicine, National Institutes of Health, May 19, 1995: “Juvenile dermatomyositis”

National Institutes of Health Clinical Center Grand Rounds, September 29, 1993; “Juvenile idiopathic inflammatory myopathies” as part of Clinical staff conference “Myositis: Immunologic contributions to understanding causes, therapy”, P.H. Plotz, moderator.
