EPA / ATSDR Contact List for the Superfund Research Program

March 5, 2019

EPA Region I (Boston) Relevant Contacts for Enhanced Collaboration

EPA Region I: Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont

The following offices and managers/senior scientists in EPA's Boston regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration. Michelle Heacock can work with you to arrange a conference call/meeting with each SRP Research Translation Core to explain the roles of each of the contacts listed below. The SRP can also discuss what strategies have worked well in the past for improving SRP-EPA collaboration. Finally the SRP can assist in setting up the initial meetings with the appropriate managers and scientists in the EPA regional office and in developing a strategy for the most effective interaction with the EPA.

US EPA Region I
5 Post Office Square - Suite 100
Boston, MA 02109-3912

Region I Office of Site Remediation & Restoration:

Director: Bryan Olson (617) 918-1201, olson.bryan@epa.gov

Deputy Director: Nancy Barmakian (617) 918-1202, barmakian.nancy@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site- specific assessment and remediation.

Region I Remediation & Restoration Branch Chief: Bob Cianciarulo (617) 918-1330, cianciarulo.bob@epa.gov

Last Reviewed: March 5, 2019

Technical & Support Branch Chief: Meghan Cassidy (617) 918-1387, cassidy.meghan@epa.gov

This is the organizational unit(s) that report(s) directly to the Superfund Division Director. The branch chief is usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), who are responsible for the overall management of each site cleanup report to the SF branch chief.

Superfund and Technology Liaison (STL): Jan Szaro (617) 918-1316, szaro.jan@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff in taking advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

Human Health Risk Assessment Coordinator: Chau Vu (617) 918-1446, vu.chau@epa.gov

The Human Health Risk Assessment Coordinator is usually a senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The Human Health Risk Assessment Coordinator usually works with other human health and ecological risk assessors in the region.

Regional Science Liaison (RSL): Vacant- contact Valerie Blank for information (202) 564-1720, blank.valerie@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

Region I Community Involvement Coordinator: Jim Murphy (617) 918-1028, murphy.jim@epa.gov

Superfund's community involvement coordinators reach out to

residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

Regional Environmental Justice (EJ) contact: Sharon Wells, Director, Officer of Civil Rights (617) 918-1007, wells.sharon@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities, and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

Acting Regional Administrator for Region I: Deb Szaro (617) 918-8312, szaro.deb@epa.gov

Deputy Regional Administrator: Vacant

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

EPA Region I Organizational Chart:

http://www2.epa.gov/aboutepa/organization-chart-epas-region-1-office

Agency for Toxic Substances and Disease Registry (ATSDR) Senior Regional Representative: Commander Tarah S. Somers (617) 918-1493, tvs4@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR Senior Regional Representatives work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

EPA Region II (New York) Relevant Contacts for Enhanced Collaboration

EPA Region II: New Jersey, New York, the Commonwealth of Puerto Rico, and the Virgin Islands

The following offices and managers/senior scientists in EPA's New York regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration.

EPA Region II
290 Broadway
New York, NY 10007-1866

Region II Emergency and Remedial Response Division (Acting): Angela Carpenter (212) 637- 4435, carpenter.angela@epa.gov

Deputy Director: John Prince (212) 637-4380, prince.john@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site- specific assessment and remediation.

New Jersey Superfund Branch Chief: Sarah Flanagan (212) 637-3136, flanagan.sarah@epa.gov

New York/ Caribbean Superfund Branch Chief: Thomas Lieber (212) 637-3158, lieber.thomas@epa.gov

Special Projects Branch Chief: Angela Carpenter (212) 637- 4435, carpenter.angela@epa.gov

These are the organizational units that report directly to the Superfund Division Director. The branch chiefs are usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), who are responsible for the

overall management of each site cleanup, report to the SF branch chiefs.

Superfund and Technology Liaison (STL): Diana Cutt (212) 637-4311, cutt.diana@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff in taking advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

Senior Human Health Risk Assessor: Marian Olsen (212) 637-4313, olsen.marian@epa.gov

The Senior Human Health Risk Assessor is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. They usually work with other human health and ecological risk assessors in the region.

Regional Science Liaison (RSL): Vacant- contact Valerie Blank for information (202) 564-1720, blank.valerie@epa.gov

The Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research programs services for air, water, pesticides, and hazardous waste.

Region II Public Affairs Division Director: Mary Mears (212) 637-3673, mears.mary@epa.gov

Superfund's Public Affairs Officers reach out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

Regional Environmental Justice (EJ) contact: David Kluesner (212) 637-3653, kluesner.dave@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities, and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

Regional Administrator for Region II: Peter Lopez (212) 637-5000, lopez.peter@epa.gov

Deputy Regional Administrator: Walter Mugdan (212) 637-4390, mugdan.walter@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

EPA Region II Organizational Chart:

http://www2.epa.gov/aboutepa/organization-chart-epas-region-2-office

Agency for Toxic Substances and Disease Registry (ATSDR) Senior Regional Representative: Leah Graziano (212) 637-4306, lge2@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR Senior Regional Representatives work with EPA on each SF site, and bring aboard other ATSDR scientific staff when conducting site health assessments.

EPA Region III (Philadelphia) Relevant Contacts for Enhanced Collaboration

EPA Region III: Delaware, Maryland, Pennsylvania, Virginia, West Virginia, and the District of Columbia

The following offices and managers/senior scientists in EPA's Philadelphia regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration.

EPA Region III
1650 Arch St.
Philadelphia, PA 19103-2029

Region III Hazardous Site Cleanup Division Director: Karen Melvin (215) 814-3275, melvin.karen@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site- specific assessment and remediation.

Office of Superfund Site Remediation: Linda Dietz (215) 814-3195, dietz.linda@epa.gov

Office of Federal Facility Remediation and Site Assessment: Steve Hirsh (215) 814-3352, hirsh.steven@epa.gov

These are the organizational units that report directly to the Hazardous Site Cleanup Division Director. The office chiefs are usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), who are responsible for the overall management of each site cleanup report to the SF office chiefs.

Superfund and Technology Liaison (STL): Jonathan Essoka (215)

814-5774, essoka.jonathan@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff in taking advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

Regional Toxics Integration Coordinator (RTIC): Dawn Ioven (215) 814-3320, ioven.dawn@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

Regional Science Liaison (RSL): Regina Poeske (215) 814-2725, poeske.regina@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

Region III Community Involvement Coordinator: Amie Howell (215) 814-5722, howell.amie@epa.gov

Superfund's Community Involvement Coordinators reach out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

Regional Environmental Justice (EJ) contact: Reginald (Reggie) Harris (215) 814-2988, harris.reggie@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities, and to refer policy questions to the appropriate officer in

the Office of Environmental Justice in EPA HQ.

Regional Administrator for Region III: Cosmo Servidio (215) 814-2900, servidio.cosmo@epa.gov

Deputy Regional Administrator: Cecil Rodrigues (215) 814-2683, Rodrigues.cecil@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

EPA Region III Organizational Chart:

https://www.epa.gov/aboutepa/organization-chart-epas-region-3-office

Agency for Toxic Substances and Disease Registry (ATSDR): Lora Werner (215) 814-3141, lwerner@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR Senior Regional Representatives work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

EPA Region IV (Atlanta) Relevant Contacts for Enhanced Collaboration

EPA Region IV: Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee

The following offices and managers/senior scientists in EPA's Atlanta regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration.

US EPA Region IV
Sam Nunn Atlanta Federal Center
61 Forsyth Street SW
Atlanta, GA 30303-8960

Region IV Superfund Division Director: Franklin Hill (404) 562-8599, hill.franklin@epa.gov

Deputy Division Director: Randall Chaffins (404) 562-8599, chaffins.randall@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site- specific assessment and remediation

Restoration and Sustainability Branch Chief: Caroline Freeman (404) 562-8976, freeman.caroline@epa.gov

This is the organizational unit(s) that report(s) directly to the Superfund Division Director. The branch chief is usually responsible only for the Superfund program or specific aspects of the Superfund program. They are responsible for the overall management of each site cleanup and report to the SF branch chief.

Superfund and Technology Liaison (STL): Felicia Barnett (404) 562-8659, barnett.felicia@epa.gov

Last Reviewed: March 5, 2019

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff in taking advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

Regional Toxics Integration Coordinator (RTIC): Glenn Adams (404) 562-8771, adams.glenn@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region. Regional Superfund Technical Liaison (STL): Felicia Barnett (404) 562-8659

Regional Science Liaison (RSL): Dawn Taylor (404) 562-8575, taylor.dawn@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

Region IV Community Involvement Coordinator: Rachel McCullough (404) 562-8549, mccullough.rachel@epa.gov

Superfund's Environmental Outreach Coordinator reaches out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

Regional Environmental Justice (EJ) contact: Tami Thomas-Burton (404)-562-8027, thomas-burton.tami@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities, and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

Last Reviewed: March 5, 2019

Regional Administrator for Region IV: Mary Walker (404) 562-9469, walker.mary@epa.gov

Regional Chief of Staff: Blake Ashbee (404) 562-8357, Ashbee.blake@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

EPA Region IV Organizational Chart

https://www.epa.gov/aboutepa/organization-chart-epas-region-4-office

Agency for Toxic Substances and Disease Registry (ATSDR): Senior Regional Representative: John Wheeler (404) 562-1782, jzw1@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR Senior Regional Representatives work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

EPA Region V (Chicago) Relevant Contacts for Enhanced Collaboration

EPA Region V: Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin

The following offices and managers/senior scientists in EPA's Chicago regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration.

EPA Region V
77 W. Jackson Blvd
Chicago, IL 60604

Region V Superfund Division Acting Director: Tom Short, 312-353-8826, short.thomas@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site- specific assessment and remediation.

Remedial Response Branch 1: Joan Tanaka (312) 353-5425, tanaka.joan@epa.gov

Remedial Response Branch 2: Tom Short, 312-353-8826, short.thomas@epa.gov

These are the organizational units that report directly to the Hazardous Site Cleanup Division Director. The branch chiefs are usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), who are responsible for the overall management of each site cleanup report to the SF branch chiefs.

Superfund and Technology Liaison (STL): Charles Maurice (312) 886-6635, maurice.charles@epa.gov

Last Reviewed: March 5, 2019

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff in taking advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

Regional Toxics Integration Coordinator (RTIC): Andrew Podowski (312) 886-7573, podowski.andrew@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

Regional Science Liaison (RSL): Carole Braverman (312) 353-7359, braverman.carole@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

Region V Public Affairs Director: Jeff Kelley (312) 353-1159, kelley.jeff@epa.gov

Superfund's Community Involvement Coordinators reach out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

Regional Environmental Justice (EJ) contact: Alan Walts (312) 353-8894, walts.alan@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities, and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

EPA Region V Regional Administrator: Cathy Stepp (312) 886-3000, stepp.cathy@epa.gov

Deputy Regional Administrator: Cheryl Newton (312) 353-6730, newton.cheryl@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

EPA Region V Organizational Chart:

https://www.epa.gov/aboutepa/organization-chart-epas-region-5-office

Agency for Toxic Substances and Disease Registry (ATSDR): Mark Johnson, Ph.D. (312) 353-3436, mkj5@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR Senior Regional Representatives work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

EPA Region VI (Dallas) Relevant Contacts for Enhanced Collaboration

EPA Region VI: Arkansas, Louisiana, New Mexico, Oklahoma, and Texas

The following offices and managers/senior scientists in EPA's Dallas regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration.

US EPA Region VI
1445 Ross Ave., Ste 1200
Dallas, TX 75202

Region VI Superfund and Emergency Management Division Director: Carl Edlund (214) 665-8124, edlund.carl@epa.gov

Deputy Director: Pam Phillips (214) 665-3140, phillips.pam@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site- specific assessment and remediation.

Region VI Superfund Remedial Branch Chief: John Meyer (214) 665-6742, meyer.john@epa.gov

Technical & Enforcement Branch Associate Director: Ben Banipal (214) 665-7324, banipal.ben@epa.gov

This is the organizational unit(s) that report(s) directly to the Superfund Division Director. The associate director is usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), responsible for the overall management of each site cleanup, report to the Technical & Enforcement Branch Associate Director.

Superfund and Technology Liaison (STL): Terry Burton (214) 665-

7139, burton.terry@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff in taking advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

Regional Toxics Integration Coordinator (RTIC): Ghassan Khoury (214) 665-8515, khoury.ghassan@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

Regional Science Liaison (RSL): Michael Morton (214) 665-8329, morton.michael@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

Region VI Community Involvement Team: Janetta Coats (214) 665-7308, coats.janetta@epa.gov

Superfund's Community Involvement Team reaches out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

Compliance Assurance and Enforcement Director: Cheryl Seager (214) 665-3114, seager.cheryl@epa.gov

Acting Deputy Director: Stacey Dwyer (214) 665-2210, dwyer.stacy@epa.gov

Last Reviewed: March 5, 2019

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

Regional Administrator for Region VI: Anne Idsal (214) 665-2200, idsal.anne@epa.gov

Deputy Regional Administrator: David Gray (214) 665-8120, gray.david@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level. SRP may be familiar with DRA- level management in the Region.

EPA Region VI Organizational Chart:

https://www.epa.gov/aboutepa/organization-chart-epas-region-6-office

Agency for Toxic Substances and Disease Registry (ATSDR):
Senior Regional Representative: George Pettigrew (214) 665-8361, glp3@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR Senior Regional Representatives work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

EPA Region VII (Kansas City) Relevant Contacts for Enhanced Collaboration

EPA Region VII: Iowa, Kansas, Missouri, and Nebraska

The following offices and managers/senior scientists in EPA's Kansas City regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration.

US EPA Region VII
901 N. 5th Street
Kansas City, KS 66101

Region VII Superfund Division Director: Mary Peterson (913) 551-7882, Peterson.mary@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site- specific assessment and remediation.

Superfund and Technology Liaison (STL): Robert Weber (913) 551-7918, weber.robert@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff in taking advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

Regional Toxics Integration Coordinator (RTIC): Michael Beringer (913) 551-7351, beringer.michael@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other

human health and ecological risk assessors in the region.

Regional Science Liaison (RSL): Amy Shields (913) 551-7396, shields.amy@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

Region VII Office of Public Affairs - Director: Curtis Carey (913) 551-7506, carey.curtis@epa.gov

Superfund's Public Affairs Office reaches out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

Regional Enforcement Coordination Office - Director: DeAndre Singletary (913) 551- 7373, singletary.deandre@epa.gov

Environmental Justice (EJ) Coordinator and Community Involvement Manager: Altheà Moses (913) 551-7649, moses.althea@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

Regional Administrator for Region VII: Jim Gulliford (913) 551-7006, gulliford.jim@epa.gov

Deputy Regional Administrator: Edward Chu (913) 551-7333, chu.ed@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities.

Last Reviewed: March 5, 2019

Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

EPA Region VII Organizational Chart:

https://www.epa.gov/aboutepa/organization-chart-epas-region-7-office

Agency for Toxic Substances and Disease Registry (ATSDR):
Senior Regional Representative: E. Spencer Williams (913) 551-1310, kue1@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR Senior Regional Representatives work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

EPA Region VIII (Denver) Relevant Contacts for Enhanced Collaboration

EPA Region VIII: Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming

The following offices and managers/senior scientists in EPA's Denver regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration.

US EPA Region VIII
1595 Wynkoop St.
Denver, CO 80202-6312

Region VIII Ecosystems Protection and Remediation Office - Assistant Regional Administrator: Betsy Smidinger (303) 312-6231, smidinger.betsy@epa.gov

Deputy Assistant Regional Administrator: Sandy Stavnes (303) 312-6117, stavnes.sandra@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The Assistant Regional Administrator reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site-specific assessment and remediation.

Region VIII Superfund Remedial Program Director: Bill Murray (303) 312-6401, murray.bill@epa.gov

This is the organizational unit(s) that report(s) directly to the Ecosystems Protection and Remediation Office Administrator. The Director is usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), responsible for the overall management of each site cleanup report to the SF branch chief.

Superfund and Technology Liaison (STL): Stephen Dyment (303)

312-7044, dyment.stephen@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff in taking advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

Senior Human Health Risk Assessor: David Berry (303) 312-8358, berry.david@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

Regional Science Liaison (RSL): Alfred Basile (303) 312-6551, basile.alfred@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

Region VIII Community Public Liaison: Vacant

Superfund's Community Public Liaisons reach out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

Regional Office of Enforcement, Compliance, and Environmental Justice - Acting Assistant Regional Administrator: Suzanne Bohan (303) 312-6925, Bohan.suzanne@epa.gov

Acting Deputy Assistant Regional Administrator: Kimberly Opekar (303) 312-6352, opekar.kimberly@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

Regional Administrator for Region VIII: Doug Benevento (303) 312-6532, Benevento.douglas@epa.gov

Acting Deputy Regional Administrator: Deb Thomas (303) 312-6532, thomas.debrah@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

EPA Region VIII Organizational Chart:

https://www.epa.gov/aboutepa/organization-chart-epas-region-8-office

Agency for Toxic Substances and Disease Registry (ATSDR): Regional Representative: LCDR Kai Elgethun (303) 312-7019 (Denver) (208) 378-5767 (Boise), irz6@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR Senior Regional Representatives work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

EPA Region IX (San Francisco) Relevant Contacts for Enhanced Collaboration

EPA Region IX: Arizona, California, Hawaii, and Nevada, and the Pacific territories of American Samoa, Guam, and the Commonwealth of Northern Mariana Islands

The following offices and managers/senior scientists in EPA's San Francisco regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration.

US EPA Region IX
75 Hawthorne St.
San Francisco, CA 94105

Region IX Superfund Division Director: Enrique Manzanilla (415) 947-8709, manzanilla.enrique@epa.gov

Deputy Director: John Lyons (415) 972-3889, lyons.john@epa.gov

Assistant Director: Daniel Meer (415) 972-3132, meer.daniel@epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site- specific assessment and remediation.

Region IX Partnerships, Land Revitalization & Cleanup Branch - Branch Chief: Dana Barton (415) 972-3087, barton.dana@epa.gov

This is the organizational unit(s) that report(s) directly to the Superfund Division Director. The branch chief is usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs), responsible for the overall management of each site cleanup, report to the SF branch chief.

Last Reviewed: March 5, 2019

Superfund and Technology Liaison (STL): Anna-Marie Cook (415) 972-3029, cook.anna-marie@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff to take advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

Regional Toxics Integration Coordinator (RTIC): Dan Stralka (415) 972-3048, stralka.daniel@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

Regional Science Liaison (RSL): Matthew Small (415) 972-3366, small.matthew@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

Regional Compliance and Enforcement (Environmental Justice): Jim Grove (415) 947-4263, grove.jim@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

Regional Administrator for Region IX: Mike Stoker (415) 947-4235, stoker.michael@epa.gov

Deputy Regional Administrator: Deborah Jordan (415) 947-3133, Jordan.deborah@epa.gov

Last Reviewed: March 5, 2019

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

EPA Region IX Organizational Chart:

https://www.epa.gov/aboutepa/region-9-pacific-southwest-organization

Agency for Toxic Substances and Disease Registry (ATSDR):
Benjamin Gerhardstein (415) 947-4316, fty9@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR Senior Regional Representatives work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.

EPA Region X (Seattle) Relevant Contacts for Enhanced Collaboration

EPA Region X: Alaska, Idaho, Oregon, and Washington

The following offices and managers/senior scientists in EPA's Seattle regional office are the most relevant contact points for the SRP regarding continuing, initiating, or increasing SRP-EPA collaboration.

US EPA Region X
1200 Sixth Ave. Ste. 900
Seattle, WA 98101

Region X Office of Environmental Cleanup Director: Sheryl Bilbray (206) 553-2957, bilbrey.sharon@epamail.epa.gov

This is the major office responsible for the regional Superfund program (and other related hazardous waste programs). The division director reports directly to the political appointee (the Regional Administrator) and is responsible for overall management direction of the Superfund program and tens of millions of dollars in site- specific assessment and remediation.

Superfund Unit 2 Manager: Davis Zhen (206) 553-7660, zhen.davis@epa.gov

Superfund Unit 3 Manager: Shawn Blocker (206) 553-4166, blocker.shawn@epa.gov

This is the organizational unit(s) that report(s) directly to the Superfund Division Director. The Director is usually responsible only for the Superfund program or specific aspects of the Superfund program. The Remedial Project Managers (RPMs) responsible for the overall management of each site cleanup report to the SF branch chief.

Superfund and Technology Liaison (STL): Kira Lynch (206)553-2144 lynch.kira@epa.gov

The STL is an engineer/scientist provided by the EPA's research program to assist the Regional Superfund program staff to take

advantage of the services that the EPA research program has to offer. They are usually very knowledgeable of the regional program and also have familiarity with the EPA laboratories around the country.

Regional Toxics Integration Coordinator (RTIC): Lon Kissinger (206) 553-2115, Kissinger.lon@epa.gov

The Regional Toxics Integration Coordinator is usually the senior Superfund regional risk assessor/scientist and is responsible for reviewing and evaluating the site-specific risk assessments conducted at Superfund sites in the region. The RTIC usually works with other human health and ecological risk assessors in the region.

Regional Science Liaison (RSL): Robert Elleman (206)553-1531, elleman.robert@epa.gov

Regional Science Liaisons are also provided by the EPA research program, but they have a broader portfolio than the STLs. They provide insights on the EPA research program services for air, water, pesticides, and hazardous waste.

Region X Community Involvement and Public Information Unit: Julie Congdon (206) 553-2752, congdon.julie@epamail.epa.gov

Superfund's Community Involvement Coordinators reach out to residents, local and state leaders, and citizen groups to identify the public's concerns. They keep interested citizens informed and involved, and work with EPA technical staff to ensure that public concerns are considered and addressed.

Regional Environmental Justice (EJ) Office: Running Grass (206) 553-2899, grass.running@epa.gov

Each region has an EJ contact to answer questions by regional staff regarding the Agency's guidance and rules for dealing with EJ communities and to refer policy questions to the appropriate officer in the Office of Environmental Justice in EPA HQ.

Regional Administrator for Region X: Chris Hladick (206) 553-2114, hladick.christopher@epamail.epa.gov

Last Reviewed: March 5, 2019

Deputy Regional Administrator for Region X: Michelle Pirzadeh (206) 553-1234, pirzadeh.michelle@epa.gov

The RA is the head of the regional office and is a political appointee. The Deputy RA is the senior civil servant in the regional office. Superfund is just one of their environmental program responsibilities. Contact with the EPA region should almost always be at the Superfund Division or Branch chief level.

EPA Region X Organizational Chart:

https://www.epa.gov/aboutepa/organization-chart-epas-region-10-office

Agency for Toxic Substances and Disease Registry (ATSDR) - Senior Regional Representative: Joe Sarcone (907) 271-4073, iqq5@cdc.gov

The ATSDR, based in Atlanta, Georgia, is a federal public health agency of the U.S. Department of Health and Human Services. It has three to five representatives in each EPA regional office to deal with site-specific health assessment issues. The ATSDR Senior Regional Representatives work with EPA on each SF site and bring aboard other ATSDR scientific staff when conducting site health assessments.
