**DESCRIPTION OF REQUIREMENT:** Illumina iSeq 100 System

**SOLICITATION NUMBER: 75N96021Q00010**

This contract action is for the acquisition of supplies for which the Government intends to solicit and negotiate with only one source under the authority of Federal Acquisition Regulation (FAR) Subpart 13.106-1(b) – Soliciting from a Single Source. The National Institute of Environmental Health Sciences (NIEHS), Office of Acquisitions (OA) intends to award a sole source purchase order to Illumina, Inc., 5200 Illumina Way, San Diego, CA 92122-4616 for iSeq 100 System. The Illumina iSeq 100 sequencing System is a low-throughput, benchtop sequencer, capable of generating up to 1.2 Gb of data per run in only 17.5 hours. Leveraging the speed and affordability of complementary metal-oxide-semiconductor technology, and the accuracy of Illumina sequencing by synthesis chemistry, the iSeq 100 System enables a lab to acquire powerful next-generation sequencing technology. Panels support small panel amplicon sequencing, making the iSeq 100 amplicon solution a fast and highly accurate benchtop NGS sequencing solution. ILLUMINA, INC. is the sole source for the iSeq 100 System. The applicable North American Industry Classification System (NAICS) code for this acquisition is 811219 Other Electronic and Precision Equipment and Maintenance (except Diagnostic) Manufacturing and a size standard of \$22.0. NIEHS will solicit and negotiate directly with ILLUMINA, INC. and no solicitation will be issued. This notice of intent is not a request for competitive proposals or quotations; however, if an interested party believes they can meet the above requirement, it may submit a statement of capabilities.
