

The New NIEHS Strategic Plan

Dr. Sheila Newton

The current NIEHS Strategic Plan, published in 2018, extends through calendar 2023. NIEHS has just begun laying the groundwork on a new one, by defining the process we plan to use to update our planning and identify goals to take us over the next five years (the new plan period will be 2024-2028.)

NIEHS will be looking for input from the EHS community, including and especially from our Advisory Council. In this presentation, Dr. Sheila Newton, NIEHS planning officer and Deputy Director of the new NIEHS office of Strategic Coordination, Planning, and Evaluation, will cover the process and timeline NIEHS plans to use for the development of its next Strategic Plan.
