

Center for Domestic Preparedness

Mission

To operate a federal training center specializing in providing advanced and hands-on training to America's federal, state, local, tribal, parish, and private emergency responders, to prevent, deter, respond to, and recover from terrorist acts, especially those involving weapons of mass destruction or hazardous materials.

FEMA

Opportunity

Facilities transfer in
September 1999
created a \$51 million
cost avoidance

Unique training and support
facilities at McClellan

Facilities include “specially-designed
buildings with sophisticated
ventilatory and other
decontamination equipment,
sensitive chemical agent monitoring
devices ...”

*Walter Reed Army
Institute of Research*
