

Workshop Description

3/30/07 10:15 am Workshop Block 4

29. DOT emergency response guide book activity (*WRUC – Bill Hatch*) *Track: Emergency/Disaster Response and Preparedness*

This workshop will demonstrate how to use the DOT Emergency Response Guidebook in response to a given scenario. The class is broken into small groups and is given a scenario with questions relating to site control along with a work sheet. The groups then gather back together to report their findings. Upon completing this exercise, participants will learn to identify the nine DOT hazard classes and recognize hazards associated with containers.
