

Climate Change Vulnerability Assessment Report

Fall 2014 WTP Meeting
October 7, 2014

Goal

To help WTP and its grantee community better plan for the health impacts and programmatic changes due to predicted changes in the global climate

Report

- Methodology
 - Matrix
 - Curricula Catalogue
 - Research
- Major Sections
 - Background
 - Climate change related hazard/vulnerability
 - Individual and Community Resiliency
 - Existing Resources
 - WTP and Awardee Vulnerability Assessment

Conceptual Framework for Vulnerability Assessment Discussion

<u>Component</u>	<u>Impact/Vulnerability</u>	<u>Opportunity</u>
Program	Training/Science Personnel Policy/Funding	New Training Research New/more staff Funding New role(s)
Grantees	As above	
Workers	Training Content Health-vulnerable pops Employment-job loss/ increased op tempo	Better training Safer workplace Green jobs New jobs New roles

Adaptive Capacity and Opportunities

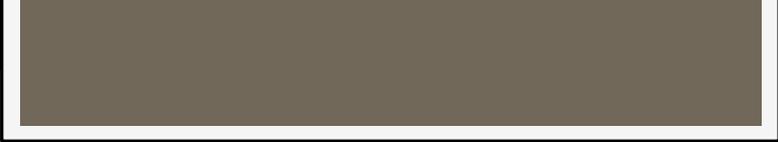

- Adaptive Capacity
 - Where do we overlap with other departments and agencies-Strategic Partnerships?
 - How do we communicate better to stakeholders (old and new)?
 - Regional coalitions?
 - How do we keep up with the science of climate change?
 - How can we incorporate new findings into training?
- Opportunities
 - Can trainees play a role in community preparedness?
 - How do we stay current with green jobs and technology?
 - Is there new funding opportunity?

Group Discussion

- Feedback on report
- What are your perceived vulnerabilities and opportunities?

More Comments?

If you have additional comments or suggestions on how this report can better serve you, please send them to Joy Lee (jlee@michaeldbaker.com) by October 22, 2014.

Thank you!
