Objectives:

- Promote interactions among grantees from across different grant programs
- Facilitate group learning
- Advance our common understanding of what we are trying to do as part of PEPH
- Share and learn from past experiences
- Enhance the capacity of participants in PEPH-related areas
- Identify next steps for grantees and NIEHS to advance scientific approaches

2:30	<p>State of the Science Main Auditorium</p> <p>Building Capacity: A Grassroots Perspective on Research and Meaningful Engagement Elizabeth Yeampierre, UPROSE</p> <p>Environmental Health Communication: Message Strategies from a Climate Change Perspective Connie Roser-Renouf, George Mason University</p> <p>Sustaining Research Translation to Improve Environmental Health: The Longevity of Knowledge Brokers and Issue-Based Networkers. Amy Kyle, University of California, Berkeley</p>
3:45	Break
4:00	<p>Breakout Session 1 Breakout Rooms</p> <p>In this first breakout session, participants will attend one of the following three themes. Each one will have small group discussions on issues specific to that topic. (see descriptions below)</p> <ul style="list-style-type: none"> <p>▪ Research Translation <i>What are the strategies we use to make scientific findings and knowledge available and actionable for audiences and partners outside the academic and research communities to advance environmental public health protection? These sessions are about how we identify opportunities and decide what to work on.</i></p> <ul style="list-style-type: none"> <p>▪ Strategies of Research Translation: The State of Practice Room F1/F2 (Lower Level)</p> <p>▪ Engaging with Policy Audiences Room G1/G2 (Lower Level)</p> <p>▪ Engaging with Communities of Interest to Improve Health Room E1/E2 (Lower Level)</p> <p>▪ Capacity Building <i>The capacity building track aims to enhance the capacity of academic researchers and community representatives to advance science-based decision-making through building sustainable partnerships, integrating logic modeling practices and techniques, and promoting research ethics and principles for effective outcomes to ultimately improve environmental health for all.</i></p> <ul style="list-style-type: none"> <p>▪ Developing and Sustaining Partnerships Room A (Lower Level)</p> <p>▪ Logic Modeling Balcony C (Main Level)</p> <p>▪ Building effective engagement around research ethics Balcony A (Main Level)</p> <p>▪ Communication <i>Through discussion and a collective sharing of best practices, the Communication Sessions aim to elevate our environmental health communication strategy skills and strengthen our environment health networks. All three workshops will identify gaps, opportunities, and how we can unite and benefit from one another within the PEPH network.</i></p> <ul style="list-style-type: none"> <p>▪ Dialogue Room B (Lower Level)</p> <p>▪ Messaging and Framing Balcony B (Main Level)</p> <p>▪ Web and Emerging Technologies Room C1/C2 (Lower Level)</p>
