W O R K E R E D U C A T I O N & T R A I N I N G P R O G R A M

• **NIEHS**

Recommendations/Concerns

- Timely and accurate notification if a hazmat incident has occurred
- Community input on evacuation plans
- Need an independent source of air monitoring who will issue results/notifications
- Need to maintain the placarding/labeling system and more training in this area
- Outreach to communities to educate (like the CERT training)
- Need information on household toxic chemicals
- Need more access to quality hazmat training
- Phase out and/or substitute toxic chemicals
