

Instituting control zones:

Table top exercise # 2

Hutterite colony

- 230 head dairy
- 260 sows - farrow to finish
- 2,500 leghorn chickens
- 1200 ducks
- 1000 broiler chickens
- 350 head beef cow / calf
- 20 sheep with lambs
- 300 geese
- 600 turkeys

#1 Where do you institute your hot, warm and cold zones?

#2 What procedures do you institute for the residents and for workers tending to other animals on the property?

#3 How would deal with a resident that must leave for medical reasons?
