

Workshop Description

3/30/07 1:15 pm Workshop Block 5

35. Ammonia hands-on simulation (*Mid-west Consortium– Wayne Whiting & Rich Hoerth*) Tracks: *Emergency/Disaster Response and Preparedness/ Instructor Development*

This session provides opportunity for participants to understand the conduct of an Ammonia Emergency Response. Presenters will highlight monitoring and setups for simulation exercises.

At the end of this informal discussion, participants will be able to:

- Look at the market for presenting this training.
- Describe the program content
- Know which props are needed for hands-on exercises.
- Describe and conduct ammonia monitoring and simulation exercises.
