The objective of this presentation is to provide attendees with knowledge about the use of dioramas and tabletop exercises in training. The workshop will cover how to develop and construct a diorama to use in a wide range of training scenarios (e.s. plant-based, community). Attendees will also use a tabletop exercise to simulate an emergency situation in an informal, stress-free environment. The participants, key decision makers, discuss general problems and procedures in the context of an emergency scenario. The focus is on training and familiarization with roles, responsibilities and procedures.
