

## Workshop Description

*3/29/07 10:45 am Workshop Block 1*

**6. ICS: Providing functional tools for response** (*UAB - Mike Williamson*) *Track: Emergency/ Disaster Response and Preparedness*

This session will utilize a skill building activity that demonstrates the basic functions of the Incident Command System (ICS). This activity allows students to use the Incident Command System to build a LEGO toy in the class. Upon completion of the activity, students discuss the activity and applications of the ICS.
