What if you could reduce the time it takes to make simulations
from **dozens of hours or more...**

to *less than 1 ?*
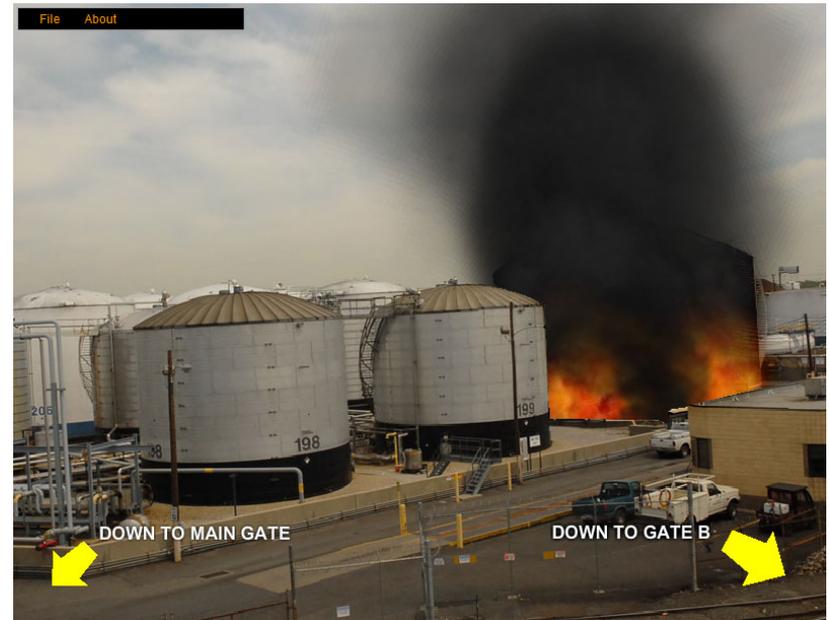

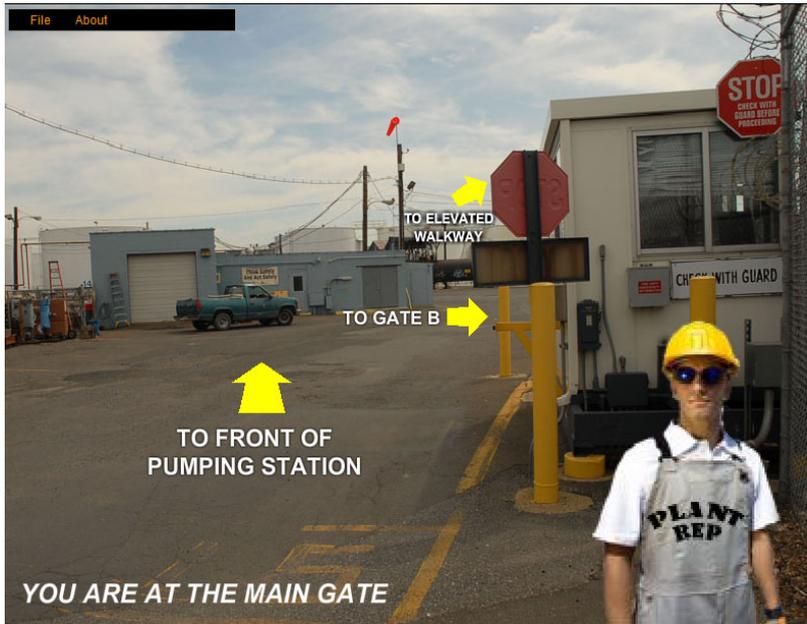

Equipment Simulations LLC
Virtual Training. Real Results.

Start Making Virtual Simulations for Situational Training—
It's Easier Than You Think

Jonathan Kaye, PhD

Equipment Simulations LLC / CommandSim

Virtual Training. Real Results.

Example of 'Situational Training'

Instructor provides context-relevant multimedia to facilitate rehearsal/training

Agenda

- "SimsUShare": Core concepts & components
- Example: simple simulation construction
- Practice:
  - You create a simulation
 - Discuss what you've produced and how it might be used
- Q&A

SimsUShare: Core Concepts

- Cloud-based and mobile platform

- Sharing, collaboration, and building off the work of others

- Dramatically reduces time to create and deploy simulations in the classroom or online

- Initial areas (Fall 2012): HazMat and Fire

SimsUShare: Core Components

- Web Platform: like YouTube meets Facebook
  - Web Sim Player
  - Web Sim Editor
- Mobile Player/Editor

Example simulation construction

Your Turn…

- Preloaded devices with pictures & sims

  – Or take your own—but please don't freak out the hotel staff

- Work with your group and we'll discuss how one might use sims in the classroom
