2012 NIH FALL UPDATE

- Highlights from the 2012 NIH Fall Update
- Policy Reminders
- Questions and Answers

FY2013 President's Budget

- Requests 30.9 billion for NIH; same as FY2012
- From the HHS FY2013 Budget in Brief:
 - Continued focus on resources for young, first time researchers
 - Continued exclusion of inflationary allowances
 - Reduce non-competing continuation grants by 1% below FY2012 level
 - Manage competing awards to avoid growth in average award size
 - Provide consideration by IC Advisory Councils of awards to PD/PIs with existing grants of \$1.5 million or more in Total Costs

NIH FY 2012 Fiscal Policy for Grant Awards

- FY 2012 Funding Levels: Non-competing awards will be issued without cost of living/inflationary adjustments.
- Inflationary Increases for Future Years: Will be discontinued for all competing and non-competing research grant awards issued in FY 2012.
- Overall effort is to keep average size of grants consistent to the FY2011 levels or lower.
- NRSA / Graduate Students: NIH will implement a two percent increase at all stipend levels.
- Salary Limits: Applies Executive Level II.
- Additional Information: Additional details on Fiscal Operations, including specific funding strategies for ICs will be posted at <http://grants.nih.gov/grants/financial/index.htm>

NIH Salary Cap News

- Prior year awards (awards made in FY 2011, 2010, etc) are not impacted. No adjustments required;
- If the President signs a CR for any part of FY 2013, unless legislative language provides otherwise, the EL-II salary cap will apply regardless of what level was applied in FY 2012;
- Where applicable, grantees will be allowed to rebudget in an effort to accommodate the new salary cap limitations.
- Salary cap does not apply to payments made to consultants under a grant;
- Salary cap does apply to subawards/contracts for substantive work under a NIH grant;
- See Frequently Asked Questions website at http://grants.nih.gov/grants/policy/fy2012_salary_cap_faqs.htm

How the NIH Fiscal Policy Impacted Your FY2012 WETP Award

- Your progress report requested budget equaled the Total Cost committed on your FY2011 Notice of Award for this year.
- Out-year commitments will be revised to remove inflation, if applicable.
- Use the Executive Level II Salary Cap (\$179,700) on your budget request.
- Use the 2012 NRSA Guidelines to determine the graduate student compensation limits.

Closing out the Era of ARRA

- Timely Quarterly and Closeout Reports Required
 - All standard closeout documents apply to ARRA funded awards (Final Progress Report, Final Invention Statement, Final FFR), even if ARRA funded a Supplement to a non-ARRA parent;
 - Financial closeout requirements for multiple ARRA supplements: [NOT-OD-10-066](#).

New HHS Policy on Efficient Spending

- New HHS policy modifies grantee use of NIH funds for conferences, meetings, food, promotional items, and printing and publications.
 - Applies to NIH Grants and Cooperative Agreements where the primary purpose of the grant is to support a Conference and/or Scientific Meeting (i.e. R13s and U13s);
- Implications for Grants
 - Effective with awards issued on or after 01/27/12, a new term and condition prohibiting food/meal costs from being supported by or charged to NIH-supported conference grants will be included on all competing and noncompeting NIH R13 and U13 awards: “Direct charges for meals/food and beverages are unallowable charges to this project.”

POLICY REMINDERS

Due Dates for WETP Program

- BUDGET START DATE
- FFR Due - 90 days following the calendar quarter end of the previous budget end date
- Carryover Requests due – at least 5 months prior to Budget End Date
- Progress Report Due - 60 days prior to Budget End Date (45 days for any awards under eSNAP.)
- BUDGET END DATE

Non-Competing Continuation Progress Reports

- Failure to submit complete and timely progress reports may affect future funding to the organization;
- Non-SNAP annual progress reports are due two months prior to the anniversary date (paper submission);
- SNAP progress reports (e-SNAP) are due 45 days prior to the anniversary date (electronically submitted through eRA Commons eSNAP Module);
- All grantees have access to a searchable list to determine which progress reports are due at: http://era.nih.gov/userreports/pr_due.cfm

Prior Approvals

- Prior Approval Requests must be submitted by an Authorized Institutional Signing Official to the NIEHS Grants Management Specialist.
- The following are some issues that require Prior Approval:
 - Deviations from Award Terms and Conditions (e.g. – changing consortium partners)
 - Carryover of Unobligated Balances
 - Change of Scope (e.g. – significant rebudgeting of > 25%; change in human subject activities)
 - Reduction of Effort by PI/Key Personnel by 25% or more
 - No-cost Extensions (beyond first 12 months)
- NIEHS tries to respond to all prior approval requests within 30 days of receiving all necessary information from the grantee.

Carryover Requests

A carryover request should include the following:

- A cover letter explaining why there is a balance, and what the intended use of funds is, countersigned by a Signing Official.
- A detailed budget and budget justification for unobligated balance AND requested use of unobligated balance.
 - Levels of effort must be stated for all salary requests
 - Separate budget breakdowns should be provided for each subproject
 - Separate budget breakdowns should be provided for each consortium involved
- A checklist page identifying any requested indirect costs

It may be helpful for you to categorize your unobligated balance and request in the following budget tables.

Justification/Explanation

Reasons why Carryover Requests are Rejected:

- The prior year Federal Financial Report (FFR) must be received and approved by NIH first.
- The request was not signed by an authorized institutional signing official.
- Requested costs appear to duplicate costs in the current year's award (e.g. extra salary for someone already at 12 months of effort).
- All carryover funds must be spent in the budget period they are requested (so get your requests in early!)
- Carryover funds must be within the currently approved scope of the grant.
- Carryover requests should only reflect immediate needs (therefore, try to avoid salary for "TBN" positions).

Closeout : Final Reports

*Grantees are **strongly encouraged** to submit closeout documents electronically through the eRA Commons!*

- Failure to submit timely reports may affect future funding to the organization;
- Documents are due within 90 days of project period end date:
 - Final Federal Financial Report (FFR) SF-425 Expenditure Data (submitted through eRA Commons);
 - Final Inventions Statement & Certification;
 - Final Progress Report;
- Grantees must ensure there are no discrepancies between the final FFR expenditure data (in eRA Commons) and the FFR cash transaction data in the Payment Management System.

Closeout : NIH Centralized Processing Center

- Centralized office accepts receipt of all non-financial, paper-based closeout documents;
 - Final Progress Report;
 - Final Invention Statement and Certification.
- If not using eRA Commons Closeout Module, mail closeout documents to the Central NIH unit at:

NIH Centralized Processing Center
6705 Rockledge Drive, Room 2207, MSC 7987
Bethesda, MD 20892-7987 (for regular or US Postal Service
Express mail)
Bethesda, MD 20817 (for other courier/express mail only)

Audit Requirements

All NIH Grantees that expend \$500,000 or more within a year in Federal awards are subject to an audit requirement.

- Audits are due within the earlier of 30 days after receipt of the auditor's report(s) or 9 months after the end of the grantee's audit period.
- Grantees delinquent in submitting audits risk the imposition of sanctions and potential loss of Federal funds.
