

NIEHS Worker Training Program Grantee Meeting

Rodbell Auditorium

September 19, 2016

Joseph T. Hughes Jr.

Director

Worker Training Program

Division of Extramural Research & Training

National Institute of Environmental Health Sciences

Welcome to North Carolina!
Please make your voice be heard!

**No Deal,
Just
Repeal
HB2**

50th anniversary event in Boston, MA July 18 - 20

- **WTP Workshop** – ‘Responding to Emerging Health Threats Through Research and Training’
- **NIH Disaster Research Response (DR2) Workshop** – Participants considered how to initiate health research following a hypothetical flood in the Boston and Chelsea areas
- **Community Tour** of Chelsea area where flooding could lead to contamination from petroleum stored on the banks of the Chelsea River

“We need better understanding of environmental health impacts after disasters to be able to answer important public health questions and allocate resources accordingly.”

*— Aubrey Miller, M.D.,
NIEHS DR2 program lead*

TRAINER'S EXCHANGE
Changing the face of training in the 21st century

June 7-8, 2016
DOE NATIONAL TRAINING CENTER • ALBUQUERQUE, NEW MEXICO

NIEHS WTP Components

Hazardous Materials Worker Health and Safety Training (U45)

- Hazardous Waste Worker Training Program
- Hazmat Disaster Preparedness Training Program
- Environmental Career Training Program

Department of Energy/NIEHS Nuclear Worker Training Program (UH4)

Biosafety & Infectious Disease Response Training (UH4)

WTP Infectious Disease Initiatives

- **Summer webinar series** for new Ebola Biosafety and Infectious Disease Response Training Program grantees
- **Pathogen Safety Data (PSD) Training Initiative**
 - April 2016 webinar informed development of a guidebook and training materials for infectious disease emergency response and clean-up
 - PSD resources will be presented at the Infectious Disease workshop in September

Ebola Biosafety and Infectious Disease Training Response Program Goals

Project Timeline June 2016– May 2019

Awards: \$3 Million per year x 3 years = Total \$9 Million

1. **Develop** targeted safety and health training program that focuses on dissemination of environmental infection control and hazard recognition training
2. **Identify** target worker populations, environments or tasks that increase exposure to high risk pathogens, within the whole-of-community
3. **Establish** enhanced national capacity and coordination through partnerships to provide the essential training, tools and infrastructure needed to strengthen risk assessment and prevention mechanisms for enhanced biosafety in a broad-set of occupational settings
4. **Promote** all-hazards approach to risk reduction, stratification and infection protection skill sets applicable to working in potentially contaminated environments
5. **Empower** workers, through evidence-based curricula, to understand the science of infectious pathogens and exposure control (such as critically judge potential impact of outcomes, transmission of disease, persistence in the environment, application of the hierarchy of controls, worker protection and decontamination protocols)
6. **Share & Integrate** evaluation frameworks and build upon the initial preparedness work of federal, state, local and private sector agencies

Ebola Biosafety and Infectious Disease Training Response Funding Strategy

- Estimate to fund 8 applicants in response to this funding opportunity
- NIH intends to commit \$3 million in FY 2016
- Total of \$9 million over a period of 3 years

Funding decision considerations:

- Overall priority score
- Return on investment (ROI)
- Budget adjustments in the proposed plan based on the training needs of high risk populations, national geographic coverage in training availability, and the published program priorities for training support.
- Applicant's ability to independently continue their program and overlap with other Federal Ebola Biosafety and Infectious Disease funding.

Ebola Biosafety and Infectious Disease Training Response RFA-ES-15-018 Awardees

➤ **Confirm to award 8 applicants in response to this funding opportunity**

Worker Education and Training Program (WETP) Logic Model

Mission Priorities:

- Continually seek and encourage opportunities to collaborate with organizations (at all levels) that share the common goal of protecting workers and their communities.
- Advocate for the health and safety of emergency responders and skilled support personnel through actively participating in all phases of the national response to disasters.
- Oversee and manage the expansion of a national network of trainers with diverse specific skills grounded on a common training doctrine.
- Expand opportunities for minority and underserved populations in cities and surrounding communities by providing life skills, construction, and career training in the handling and remediation of hazardous materials.
- Leverage and actively integrate technology and innovation to improve the delivery of education and training to workers performing duties in a hazardous environment.

Organizational Priorities:

- Foster more awardee partnership activities.
- Institutionalize the WETP in awardee organizations by capturing program history and maintaining strong leadership development programs.

The Environmental Health Sciences FEST

December 6-8, 2016 | www.niehs.nih.gov/ehsfest

- **Registration is open!**

As of September 9, we have 338 registered

- **Special Events:**

- Poster Sessions
- Film Festival
- Sensor Fair

- **Wide Range of Topics:**

- Dissemination & implementation science
- Children's health
- Mixtures
- Data science
- Environmental health disparities
- Translational research
- Neurological assessment
- More!

The Environmental Health Sciences FEST

Plenary Sessions

- **Opening Plenary: 50 Years and Going Strong**
 - Speakers: Gary Miller, Beverly Wright, Allan Just, Serrine Lau
- **Plenary 2: Linking Chemical Exposures, Biological Pathways and Disease**
 - Speakers: Cheryl Walker, Bevin Engleward, Irfan Rahman
- **Plenary 3: Exposures Across the Lifespan**
 - Speakers: Emilie Rissman, Ami Zota, Janet Hall, Karin Michels
- **Plenary 4: Translational Research**
 - Speakers: Bruce Hammock, Carl White, Tracey Woodruff, Julia Brody
- **Closing Plenary: Emerging Technologies, Novel Approaches, and New Opportunities for Environmental Health Sciences**

Guidance for completing the Worker Training Program 2016 Progress Report and the NIH RPPR

WTP Progress Report Element	Corresponding NIH RPPR Element	Notes on NIH Requirements
A. Specific Aims	None	
B.I. Progress Report Abstract:	B.1 What are the major goals of the project?	Text box – NIH recommends 1 page; 8000 character limit
B.II. Training Accomplishments:	B.2 What was accomplished under these goals?	Attachment -2 pages recommended. WTP recommends attaching your WTP progress report here.
B.II. Training Accomplishments:	B.5 How have results been disseminated to communities of interest?	Text box – NIH recommends 1 page; 8000 character limit
B.III. Training Effectiveness:	B.4 What opportunities for training and professional development has the project provided	Attachment; page limit not noted. WTP recommends attaching any overall evaluation reports here.
B.IV. Curricula Update:	C.5.a Other products	Briefly describe attachment, no page limit on attachments. You may upload your course listing here.
B.V. Advisory Board Activities:	None	
B.VI. Trainee Follow-Up:	See above under training effectiveness	Attachment; page limit not noted
B.VII. Instructor Support:	None	

WTP Progress Report Element	Corresponding NIH RPPR Element	Notes on NIH Requirements
B.VIII. Program Self-Audit:	None	
B.IX. Supplemental Progress/Carryover:	B.3 Competitive Revisions/Administrative Supplements. For this reporting period, is there one or more Revision/Supplement associated with this award for which reporting is required?	<ul style="list-style-type: none"> • Specific aims text box (700 character limit) • Accomplishments text box (700 character limit) <p>NOTE: Please report on FY2015 Ebola supplement activities in the RPPR, as WTP did not have to do an NIH RPPR last year. Include Flint carryover activities also.</p>
C. Significance	None specifically; tied to B.2 What was accomplished under these goals?	
D. Plans	B.6 What do you plan to do for the next reporting period to accomplish the goals?	Text box – NIH recommends 1 page; 8000 character limit
D. Plans	F.2 Actual or anticipated challenges or delays and actions or plans to resolve them.	Text box – NIH recommends 1 page; 8000 character limit
E. Publications	C.1 Publications	
F. Project - Generated Resources (resources developed outside of curricula updates)	None
