SECTION E. EARLY PREGNANCY BEHAVIORS DURING THE EARLY PREGNANCY STUDY

These questions are about the pregnancy you conceived during the Early Pregnancy Study. Researchers often ask women to describe pregnancies that occurred decades earlier however, little is known about how women’s descriptions of their pregnancies may change over time. We realize it may be difficult to remember and we appreciate your efforts.

For the following questions, please consider your typical behavior in the first two months after your last menstrual period for the pregnancy you conceived during the Early Pregnancy Study. You can also let us know how sure you are about each answer on a scale of 1 to 4, 1 being very unsure and 4 being quite sure.

DNA. We may be interested in examining whether genes are associated with reproductive health among Early Pregnancy Study participants. Would you be willing, at some future date, to provide a saliva sample that would be used to study your genes through DNA analysis? Answering “yes” now does not obligate you to contribute a sample in the future.

CONTINUATION FOR ADDITIONAL PREGNANCIES

Please use these continuation pages if you have had more than one pregnancy, you described your first pregnancy in section C. Complete one continuation page for your second pregnancy, another for your third, and so on. Please fill in dates as completely as possible rather than leaving the entire date blank. For example, if you can only remember month and year, just leave day blank. If you need more continuation sheets please contact our study manager, Elizabeth O'Connell, 1-800-948-7552, extension 4335, and she will be glad to send you more.
