Public Health Disaster Research Response
September 19, 2014, 1:00-2:15 p.m. EDT
To participate, please see Webinar Information below.

Description:
Public health emergencies (e.g., 9/11, H1N1 pandemic, Gulf Oil Spill, Fukushima Nuclear Disaster, Hurricanes Katrina and Sandy) pose many adverse health effects for local communities and the first responders. However, there is a recognized knowledge gap regarding the environmental exposures during the disaster and the potential health outcomes. The recent call to action, “Research as Part of Public Health Emergency Response,” authored by the NIH Director, the HHS Assistant Secretary for Preparedness and Response, and the CDC Director, voiced the critical need for well-designed, effectively executed research to address these pressing knowledge gaps. These public health emergencies present challenges to the research community because of their unpredictable onset as well as their health and environmental effects. Currently, human subjects research in the period immediately following disasters is hampered by the time needed to design protocols and implement data collection, so the opportunity to acquire crucial early epidemiologic, medical, and environmental data and samples is usually missed. The NIEHS, HHS, other federal agencies, and the academic community are working to address this need.

In this webinar, we will hear about the current Public Health Disaster Research Response (DR2) and Science Preparedness efforts to help respond to the need for timely research.

Presenters:

Anthony Barone, M.P.H.
Senior Management Analyst – Emergency Management
GAP Solutions, Inc.
Assigned to the Office of the Assistant Secretary for Preparedness and Response (ASPR)

Aubrey Miller, M.D., M.P.H.
Senior Medical Advisor
National Institute of Environmental Health Sciences

Sharon Petronella Croisant, Ph.D.
Associate Professor
University of Texas Medical Branch at Galveston

Webinar Information:
Go to the webinar’s Adobe Connect Meeting Room (https://webmeeting.nih.gov/peph) and enter as a Guest. Type in your full name and click the Enter Room button. You then will be prompted about calling in. Click on dial-out and enter your phone number, including “1” and the area code. You then will receive a call from the webinar room to join.

PEPH Webinar Series
The Partnerships for Environmental Public Health (PEPH) program established the PEPH Webinar Series to promote interactions among PEPH grantees and to increase awareness of common issues and approaches. The webinars facilitate consideration of emerging issues. While the primary audience is grantees within the PEPH network, anyone interested in environmental public health is welcome to register.

If you have any questions about this webinar, please contact Liam O’Fallon (ofallon@niehs.nih.gov, 919-541-7733).

Accommodations for Disabilities:
Individuals with disabilities who need accommodation to participate in this event should contact Liam O’Fallon (ofallon@niehs.nih.gov, 919-541-7733). TTY users should contact the Federal TTY Relay Service at 800-877-8339. Requests should be made at least 5 business days in advance of the event.
