

WORKFORCE CREDENTIALING FOR VETERANS AND THEIR FAMILIES MILITARY/CCCHST

National Partnership for Environmental Technology Education (PETE)

- National 501 (c) (3) Non-Profit organization:
 - **Mission:** To provide leadership in environmental education and training through community, tribal and technical college partnerships with business, industry, government, and other educational providers. Faculty Development & Capacity Building!
- Community College Consortium for Health & Safety Training (CCCHST)
- We are an Affiliated Council of the American Association of Community Colleges (Workforce & Eec. Dev. Commission).
- PETE is a HWWTP, HDPTP and DOE Grantee of NIEHS

WORKFORCE CREDENTIALING FOR VETERANS AND THEIR FAMILIES

- Each year over 200,000 service men and women leave the service and enter the work force. Over 150,000 working age spouses accompany the service member.
- Unemployment tends to be higher for veterans than general public.
- Military Occupational Specialty Skills, MOS do not produce civilian credentials (majority of MOS).
- NPETE/Barton Community College Partnership

FOCUS

- Focus on complimenting skills acquired during military service.
- Career fields that compliment skill sets attained during service and are in demand
 - Occupational Safety and Health
 - Environmental
 - Hazardous Materials Management
- Use existing certificate and degree programs
- OSHA Education Center Numbered Courses
- No-cost to participants

- Active-Duty Service Members
- Family Members (DOD ID)
- National Guard
- Reserve Members
- Veterans – DD214- (Honorable Discharge)
- Community & College Consortium for Health & Safety (CCCHST) Training*

- *on a space available basis

NIEHS Grant

- 5 Year Grant with 35+ classes per year
- Partnership
 - NPETE (CCCHST)
 - Barton CC
 - Home Builders Association (New)
 - Military Installations (40 Hour HAZWOPER)
 - Fort Riley, KS
 - Fort Sill, OK
 - Fort Carson, CO

Classes

- **OSHA -510 – OSH Standards for General Industry**
- **OSHA 511 – OSH Standards for Construction**
- **OSHA 521 – Industrial Hygiene**
- **OSHA 2015 – Hazardous Materials**
- **OSHA 2225 – Respiratory Protection**
- **OSHA 3095 – Electrical Standards**
- **OSHA 7115 - Lock Out Tagout**
- **OSHA 7500 - Intro to Safety and Health Management**
- **OSHA 7505 – Intro to Incident Investigation**
- **OSHA 10 Hour General Industry (GI)**
- **OSHA 10 Hour Construction Industry (C)**
- **OSHA 500 Trainer Course for General Industry**
- **OSHA 501 Trainer Course for Construction Industry**
- **RHSM 6010 Safety Health & Environmental Risk Management**
- **EHSM Intro to Environmental Compliance & Management**
- **40 Hour Hazardous Waste Operations & Emergency Response, HAZWOPER**

Numbers

- From 2015 – May 2, 2024, we have offered 174 courses with 2,874 student enrollments.
- *We have averaged over 10,000 contact hours a year.*
- This year: 13,622 CH's, with 5 classes remaining

HWWTP- MILITARY/CCCHST

- Classes offered in 4 time zones (ZOOM)
- Enrollment is first-come first-serve
- Strict attendance
- College Credit
- <http://bartonsafety.org/courses/certificates>

HAZMAT handlers

BCC to offer no-cost training for transitioning soldiers

COURTESY PHOTO

"Students in one of Barton Community College's traditional HAZMAT courses practice handling hazardous materials in October. A big part of the curriculum is hands-on experience so students are prepared for the field."

SPECIAL TO THE TRIBUNE

Barton Community College in conjunction with the National Partnership for Environmental Technology Education (PETE) will begin offering a 10-day Hazardous Waste Worker Training Program at military installations across the country. The course is geared toward transitioning soldiers, retirees and family members at no cost.

The training will consist

of an Occupational Safety and Health Administration (OSHA) hazardous materials course, a 10-hour general industry safety course and Hazardous Waste Operations and Emergency Response (HAZWOPER) training and will consist of classroom instruction and hands-on applications.

The program is being offered at no cost because PETE recently received a grant for \$300,000 over a five-year pe-

riod from the National Institute of Environmental Health Sciences (NIEHS). PETE chose Barton as a contractor to provide the instruction. Barton will utilize a custom-designed, mobile training trailer to provide instruction to disaster-site workers for the course.

Dean of Fort Riley Technical Education and Military Outreach Training Bill Nash said it is important to provide training to soldiers making the transition to civilian life.

"This course is only 10 days and it is a great opportunity for transitioning soldiers because they can get this training at no-cost and immediately have qualifications that employers in the HAZMAT field are looking for," Nash said. "They can get back to their lives and get to work right away so they can provide for their families."

For more information, contact Dean of Fort Riley Technical Education and Military Outreach Training Bill Nash at nashw@bartonccc.edu or 785-238-8550 Extension 6812.

FORT RILEY, KANSAS

FORT RILEY, KANSAS

FORT CARSON, COLORADO

FORT SILL, OKLAHOMA

LOCATIONS

- In the current 2023-2024 project year, we have had participants from thirty-two states:
- Alabama, Arizona, California, Colorado, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois,
- Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Minnesota, Missouri, New Jersey, New Mexico,
- New York, North Carolina, Oklahoma, Oregon, Rhode Island, South Carolina,
- Tennessee, Texas, Virginia, Washington, Wisconsin, and Wyoming.
- Students also attended from Germany, Japan, South Korea, Poland, Guam, and Puerto Rico.

First Testimonial:

- (1) **What job did you secure after leaving the Army?** I am actually still in the Army.
- (2) **Does your job require the Hazmat knowledge and skills you received in training?**

Yes, as an Army Industrial Hygienist and Certified Safety Professional, a key element of my mission is to maintain a working knowledge regarding hazards related to exposure to hazardous materials, as well as how to appropriately prevent/mitigate exposure to personnel.

- (3) **In your opinion, did the Hazmat training help you secure the new job?** This training provided me with the background knowledge to 1) address complex problems; and 2) appropriately develop policy targeted toward identifying, recognizing, evaluating, and controlling hazardous exposure as the Chief of Industrial Hygiene at The Office of the Army Surgeon General/U.S. Army Medical Command.

Very respectfully,

MAJ Patricia H. Passman, MSPH, CIH, CSP

Chief, Industrial Hygiene, Public Health Directorate | Deputy

Chief of Staff for Public Health, Office of The Surgeon General | Defense
Health Headquarters, 7700 Arlington Blvd, Falls Church, VA 22042

Second Testimonial:

- A student expressed a great deal of satisfaction at being able to attend the course.
- She said that she wished she would have been able to attend a class like this prior to deploying to assist after the World Trade Center.
- She explained that they used the knowledge they had at the time, but she would have been more effective as an advisor if she knew what she learned in class.
- She said that the training will come in handy when she inspects and advises industry personnel.
- She is a veteran who currently works for the Kansas Department of Labor.

Third Testimonial:

- Allan Hancock College's HR Department encouraged all employees, including student workers, to complete the NIEHS Covid-19 general awareness training.
- This resource would not have been known without my having attended an NPETE seminar.
- The NIEHS training tool was also subsequently implemented throughout Ventura County Community College District, comprised of three community colleges.
- The NPETE training inspired the development of a COVID-19 safety video implemented in all Auto Technology programs to prepare and reassure students about safety measures and expectations prior to the start of fall semester.

WHAT'S NEXT

- Continue Program
 - Funding
 - Establish New Partnerships
- Continue to Market Program
 - Expand to other installations
 - Reserve and National Guard units
 - Veterans Service Organizations
