

Briefly describe the purpose of and need for the proposed requirement OR attach a Statement of Need / Statement of Work (SOW) / Performance Work Statement (PWS):

Liquid Nitrogen Freezer is very important for Demayo lab. We collect lots of mouse /human organoids for research use only. Also we need to buy cell lines for our research project from outside vendor. We need to store the cell lines both from mouse/human as well as mouse/human organoids for future research use. We import and export the cell lines to the collaborators domestic and international for their research need. All these samples has to stay in Liquid nitrogen freezer for short term as well as long term use.
